## ALLEGED PLOT TO KILL TAFT

REPORTED TO HAVE  
BEEN PLANNED IN EAST

Conspiracy is Believed to In-  
clude Several Murders  
at Spokane

(Times Leased Wire.)  
Spokane, Wash., March 6.—Involving  
an alleged plot on the part of eastern  
Anarchists to kill President Taft when  
he leaves the White House on his vaca-  
tion, the contemplated murder of  
Mayor Nelson S. Pratt, the murder of  
Police Captain J. T. Sullivan and Mer-  
chants' Police Captain Philip Southwell,  
charges were filed this morning against  
Stuart Moffett and John Steele.

Moffett is alleged to have been one of  
the instigators of the Haymarket riots  
and Steele is alleged to be one of the  
inner circle of Anarchists. They were  
arrested Friday night when Moffett  
was found loitering around the resi-  
dence of Mayor Pratt.

Both Moffett and Steele have been in  
Spokane for several years. Since the  
murder of Captain Sullivan, when their  
suspicious actions attracted attention  
at the funeral, they have been under  
surveillance.

Steele is alleged to have told Moffett  
and another man after the shooting of  
Captain Sullivan, that he left the  
scene and walked down the principal  
streets to the business district, passing  
numerous policemen as they hurried  
back and forth in search of the as-  
sassin. They first planned to kill  
Mayor Pratt, it is charged, as Captain  
Sullivan was killed.

Moffett recommitted the Pratt  
home, the police say, and found an  
armed guard watching the residence.  
He reported this to Steele and the pair  
declared they would "get him" some  
other way. Moffett went back Friday  
night to see if the guard could not be  
avoided or put out of the way that  
more mystery might be attached to the  
crime, it is alleged.

The first plan of the alleged con-  
spirators was to wait until after elec-  
tion, says Captain of Detectives M. J.  
Burns. For some unknown reason the  
men are alleged to have changed their  
plans.

"Taft will get him when he leaves the  
White House on his vacation," Steele is  
alleged to have told his companions.  
He claimed to be one of the inner cir-  
cle of Anarchists and had correspond-  
ence regarding the plot against Taft  
from eastern Anarchists.

TOURING WORLD ON FOOT.

Portland, Ore., March 6.—Gottfried  
Rodriguez, the Holland newspaperman  
who is making a tour of the world on  
foot, will remain in Portland until next  
Sunday and then proceed to Seattle  
and into Canada on the last lap of his  
tour.

He came to this country from Naples  
and worked two weeks in a New York  
factory to get starting money. When  
he arrived in this country he did not  
speak a word of English, but now he  
speaks it so fluently that he has taken  
to the stage as a comedian making his  
livelihood while on the rest of the trip.

## WESTERN ROADS WILL NOT RAISE RATES

Decide to Submit to Decision of  
the Interstate Commerce  
Commission

(Times Leased Wire.)  
Washington, D. C., March 6.—It has  
been announced that every western  
railroad has submitted to the decision  
of the interstate commerce commission  
denying the rights of railroads to in-  
crease freight rates. The roads have  
agreed to cancel the proposed increase.  
The Northwestern and Burlington  
roads have filed new schedules and  
others have promised to file them be-  
fore March 10.

Presidents McCrea of the Pennsyl-  
vania, Willard of the Baltimore & Ohio,  
Brown of the New York Central, and  
Underwood of the Erie, are in confer-  
ence here to-day with the interstate  
commerce commission regarding the  
eastern rate situation.

Willard said the roads had practi-  
cally decided to accept the rate decision,  
but they had no wish to cancel their  
increased schedules unless specifically  
ordered to do so.

ESTATE OF \$15,300.

Grand Pre, N. S., March 6.—The will  
of Dr. George Johnson, late Dominion  
statistician, shows he left an estate of  
approximately \$15,300, of which Dr.  
White and C. W. Thomson are executors.  
The real estate, furniture and  
mortgages are left to his nephew, Ay-  
ton Johnson, and the residue, \$2,300, to  
his sister, Mrs. Heustis and his niece,  
Mrs. Strong, equally, after succession  
duties and expenses are deducted.

## NINETY LOSE LIVES IN THEATRE

WILD PANIC FOLLOWS  
EXPLOSION AND FIRE

Victims, Mostly Children, Are  
Trampled Under Foot or  
Burned to Death

(Times Leased Wire.)  
St. Petersburg, March 6.—Ninety per-  
sons, mostly children, were burned and  
trampled to death in a fire here yester-  
day in a moving picture theatre at  
Beloge. Forty were seriously injured.  
Five hundred were in the theatre  
when it caught fire from an explosion  
of the moving picture machine.

The audience became panic stricken,  
and in their mad rush for the exits,  
closed the doors and passageways. Men  
in their frenzy of terror beat down  
women and children and trampled them  
under foot.

Few of the bodies of the victims  
were recognizable.

MUST PAY SEVEN MILLIONS.

Washington, D. C., March 6.—The  
supreme court of the United States  
to-day handed down a decision that  
the state of West Virginia must pay  
Virginia \$7,182,000 in settlement of a  
long-standing state debt.

The suit grows out of the action  
of congress in 1863. As a war meas-  
ure West Virginia was created into  
a new state from territory within the  
bounds of Virginia. In the turmoil  
which prevailed at the time, no pro-  
vision, of course, could have been  
made for the division of the indebted-  
ness of the state of Virginia.

After the war Virginia started ac-  
tion toward requiring West Virginia  
to assume a reasonable share of the  
debt. The claim was disputed and  
the subject has passed through various  
vicissitudes until the final decision  
from the supreme court was made  
to-day.

## NO NEGOTIATIONS FOR INTERCOLONIAL

Hon. G. P. Graham Denies Pri-  
vate Company is Seek-  
ing Railway

(Special to the Times.)  
Toronto, March 6.—"No negotiations  
have been going on for the acquisition  
or lease of the intercolonial railway by  
any private company and the line will  
remain a government road for some  
time," so said Hon. Geo. P. Graham,  
minister of railways and canals here  
to-day.

Hon. Mr. Graham would not speak of  
the report that Hon. Clifford Sifton  
would contest his seat in Brockville at  
the next general election. "I did not  
start that story," he said, "and Mr.  
Sifton has said nothing to me about it.  
Moreover, Mr. Sifton and I have  
always been firm friends."

RUEF STILL FIGHTING.

Attorneys Will Ask the Supreme Court  
For Rehearing.

San Francisco, Cal., March 6.—Abe  
Ruef's attorneys are making their last  
stand this afternoon to save the for-  
mer political boss from the penitentiary.  
They ask the supreme court for a re-  
hearing. If the application is denied  
the lawyers probably will apply to the  
United States circuit court to-morrow  
for a writ by which they hope to pre-  
vent Ruef being taken to San Quentin.  
Ruef said to-day that he had no  
hope of further delay and was resigned  
to the trip to prison.

## PLAN TO IMPEACH SECRETARY BALLINGER

Resolution May Be Introduced  
at Extra Session of U. S.  
Congress

(Times Leased Wire.)  
Washington, D. C., March 6.—Im-  
peachment of Secretary Ballinger at  
the extra session of congress is being  
planned here to-day by Democratic  
leaders. Ollie James, of Kentucky, is  
framing the resolution, and it probably  
will be introduced in the house by him  
or by Representative Graham, of Illi-  
nois.

The resolution will be referred to the  
house judiciary committee, and if it is  
adopted by the house, the senate will  
have the fate of Ballinger in its hands.

## OUR NAPOLEON HAS PREMONITIONS OF HIS WATERLOO.

At a great mass meeting held in Vancouver on Saturday evening the five city members were asked to resign their seats. At the same meeting Mayor Taylor challenged the attorney-general to resign his seat and contest the constituency against him (Mr. Taylor), standing as a candidate in the interests of the people.

## VANCOUVER FIVE ASKED TO RESIGN

MEMBERS ACCUSED OF  
FAILING TO DO DUTY

Resolution Adopted Declaring  
They Have No Longer Sup-  
port of Electors

Vancouver, March 6.—A resolution  
calling upon the five who represent the  
city of Vancouver in the provincial  
legislature to resign because of the at-  
titude they have adopted in regard to  
the annexation of south Vancouver was  
carried unanimously by a standing vote  
at a mass meeting at the Vancouver  
opera house Saturday night. Mayor  
Taylor, Reeve Pound, Ald. Enright,  
Rev. Merton Smith, who presided, and  
a number of others delivered addresses  
condemning the government and the  
local members, and dilating upon the  
handicaps that South Vancouver was  
subjected to by the refusal of the cabi-  
net to grant the necessary legislation.  
The mayor declared himself willing  
to resign and run against Attorney-Gen-  
eral Bowser for the local legislature  
to test the opinion of the public on the  
subject.

The following was the main resolu-  
tion:  
Whereas, in the interests of the city  
of Vancouver and of the district of  
South Vancouver it is imperative that  
the said district of South Vancouver  
should forthwith be annexed to and  
become part of the city of Vancouver;  
And whereas, in order that the said  
district may be so annexed it is necessary  
that enabling legislation be enacted by  
the government of the province of Bri-  
tish Columbia;

And whereas a large majority of the  
residents and electors of said city and  
district are desirous of having such  
legislation enacted and said district so  
annexed and have so expressed them-  
selves by plebiscites, by resolutions  
passed at public meetings and by many  
representative bodies and have urgently  
requested the government of British  
Columbia to enact such necessary legisla-  
tion and the government has, without  
logical reason, refused to grant such  
requests, thereby injuring said city and  
district, retarding the growth and de-  
velopment of the same, preventing the  
installation of proper sewerage and  
subjecting the residents to the danger  
of an epidemic;

And whereas the five members elected  
to represent the city of Vancouver in  
the legislature of British Columbia  
are supporting the government in its  
refusal of the requests of the electors  
and in disregard of the wishes of the  
city and in that respect utterly failed  
in their duty as representatives of the

## CONFLAGRATION AT MINNEAPOLIS

FIRE CAUSES LOSS  
ESTIMATED AT \$1,000,000

Two Women Are Believed to  
Have Lost Their Lives  
in the Flames

(Times Leased Wire.)

Minneapolis, Minn., March 6.—Fire-  
men to-day are searching for the  
bodies of Miss Mary Buck, proprietor  
of the Arion restaurant, and her maid,  
Bertha Radons, who are believed to  
have been burned to death in the fire  
which early Sunday destroyed the  
Syndicate block on Nicolett avenue be-  
tween Fifth and Sixth streets, entail-  
ing a loss of \$1,000,000. The women  
were asleep in the building.

The fire was replete with thrilling  
rescues, a dozen persons being remov-  
ed from the upper stories of the struc-  
ture while the flames were bursting  
from the building.

It was necessary to call on the fire  
department of St. Paul to furnish aid  
in subduing the flames which raged for  
the greater part of the morning. The  
fighting of the fire was made extreme-  
ly hazardous by numerous explosions  
of gas under the sidewalk, blowing  
large stones high in the air and scat-  
tering them broadcast in the streets.

For a time it was feared the fire  
would spread, as a high wind blew  
flaming brands many blocks from the  
scene of the conflagration.

Among the heaviest losers are: Min-  
neapolis Dry Goods company, \$350,000;  
Model Clothing company, \$150,000;  
Hudson & Co., \$300,000.

The loss to the building is estimated  
at \$200,000.

It is believed that most of the losses  
are covered by insurance.

ARIZONA'S CONSTITUTION.

Progressive Provisions Will Be Passed  
by Incoming Congress.

## RUSHING RELIEF FOR STARVING CHINESE

U. S. Transports Leave Seattle  
With Wheat and Other  
Food Supplies

(Times Leased Wire.)

Seattle, Wash., March 6.—The  
transport Buford, carrying hundreds  
of tons of wheat and other food sup-  
plies for the famine sufferers in China,  
is steaming out of Puget Sound this  
morning, bound on a speedy voyage  
across the Pacific, the holds carrying  
the contributions of hundreds of  
American people who have rushed to  
the aid of the dying Chinese.

The relief was made up under the  
direction of the Seattle Commercial  
Club, the use of the transport being  
donated by the United States govern-  
ment.

The value of the cargo is \$50,000,  
and goes to the American consul gen-  
eral at Shanghai for distribution. The  
largest individual donor was the  
Christian Herald of New York, pro-  
viding 1,500,000 pounds of flour.

Portland's Contribution.

Portland, Ore., March 6.—Five  
thousand dollars, contributed by Port-  
land citizens to aid the starving Chi-  
nese in the Anhui province of China,  
was cabled to Hongkong to-day. The  
money will be handled by an agent  
of the Portland Milling Company at  
Hongkong.

It is expected that several thou-  
sand dollars in addition will soon be  
raised by subscription here, and will  
be immediately sent to China.

The local Chinese colony already  
has subscribed over \$3,000, which has  
been sent to China for the relief of  
the starving celestials.

## WILL STIMULATE B. C. INDUSTRIES

WILLIAM SLOAN ON  
RECIPROCITY AGREEMENT

Brandon Grain Growers Re-  
pudiate Recent Speech of  
Clifford Sifton

(Special to the Times.)  
Toronto, March 6.—"The reciprocity  
agreement will prove a great stimulus  
to fishing, lumbering and mining, the  
three great industries of British Col-  
umbia." Thus spoke William Sloan,  
Nanaimo, ex-M. P. for Comox-Atlin,  
B. C., this morning. Mr. Sloan is in  
the east on private business.

Mr. Sloan does not expect any disas-  
ter to the fruit growing industry on  
the Canadian Pacific coast. The or-  
chards in British Columbia are not  
fully developed, he said, and it will  
take them about five years to reach full  
producing stage. By that time the de-  
mand on the prairies will exceed the  
supply.

Repudiate Sifton's Speech.

Brandon, March 6.—The grain grow-  
ers of the district met on Saturday  
afternoon and repudiated the utter-  
ances of their member, Hon. Clifford  
Sifton.

Letter From Sifton.

Ottawa, March 6.—The Evening Press  
publishes the following letter from  
Hon. Clifford Sifton:

"In your issue of March 2 I observe  
an editorial in which the following  
words occur: 'In other words, since  
1897, Hon. Clifford Sifton has become  
a manufacturer and his political spec-  
ulations have got clouded, just as the  
political vision of other manufacturers  
has become obscured.'"

"You have been misinformed. The  
statement is entirely incorrect. I am  
not a manufacturer. I have no money  
invested in manufacturing in any way  
that can possibly be affected by the  
tariff policy. My political speculations  
have not become clouded, on the con-  
trary, they never were so clear.

Signed: 'Clifford Sifton.'"

CANADA'S MINERAL

OUTPUT GROWING

Returns for Last Year Show

Increase of \$13,207,517

Over 1909

(Special to the Times.)

Ottawa, March 6.—The mines de-  
partment report shows that the total  
mineral production in Canada for  
1910 was \$105,040,958, an increase of  
\$13,207,517 or fourteen per cent. over  
1909. Gold production was \$10,224,-  
910; silver, \$17,224,910; coal, \$20,-  
\$11,750. All provinces show an in-  
crease except New Brunswick. British  
Columbia's output was \$24,547,517, as  
compared to \$22,479,006 in 1909. The  
Pacific province ranks next to On-  
tario, which produced \$43,017,062.

TO VISIT BERLIN.

Duke and Duchess of Connaught to be  
Guests of Kaiser Before Coming  
to Canada.

(Special to the Times.)

London, March 6.—The Berlin cor-  
respondent of the Sunday Times to-day  
says that the Duke and Duchess of  
Connaught have accepted invitation to  
visit the Kaiser prior to their proceed-  
ing to Canada.

## MURDERER FEIGNS INSANITY IN HOSPITAL

Investigation Into War Office  
Demanded as Result of  
Tragedy at Rome

(Times Leased Wire.)

Rome, March 6.—Radicals in the na-  
tional parliament to-day are demand-  
ing an investigation of the laxity of  
the war office as a result of disclosures  
following the killing of Countess Giulia  
di Trignon by Lieut. Paterno.  
Paterno was a cavalry lieutenant in  
good standing, despite the fact that he  
had been guilty of brawling, cheating  
at cards, beating women and defaulting  
his creditors. The minister of war  
says Paterno was not dismissed be-  
cause the war office did not know his  
disreputable character.  
In the hospital to-day Paterno is ap-  
parently insane, but physicians assert  
his madness is feigned.

## BITTER STRUGGLE IN ZION CITY

INDEPENDENTS RESENT  
ACTIONS OF VOLIVA

Preparations Also Being Made  
to Resist State Order Re-  
garding Vaccination

(Times Leased Wire.)

Zion City, Ill., March 6.—Dowleites,  
under the leadership of Wilbur Glenn  
Voliva, who succeeded John Alexander  
Dowie as the titular head of the sect  
bearing Dowie's name, threaten civil  
war or armed insurrection against the  
authority of the state of Illinois. The  
state board of health has ordered that  
every citizen of Zion be vaccinated. The  
Zionists have voted to resist the order  
"to the death."

Interline strife also exists, resulting  
in serious rioting in the streets. Armed  
guards have been posted to prevent an  
outbreak by the "Independents" or  
anti-Volvaites, who are holding a  
meeting to-day in the tabernacle.

Voliva has decided to post a guard  
with a drum in the tabernacle. The  
appearance of the state vaccination  
squad will be the signal for the guard  
to beat the drum, summoning Zionists  
to the tabernacle armed and prepared  
to resist the physicians of the state  
health board.

A similar struggle will also call the  
faithful together to resist any move-  
ment on the part of the Independents.  
The Voliva faction favors following  
the rigid rules enacted by John Alexan-  
der Dowie, when he was in absolute  
control of the city, prohibiting smoking,  
oysters, soda water, drugs, pork, dan-  
cing and other amusements. The In-  
dependents are in favor of much laxity.

Two years ago the Independents were  
successful in placing members of their  
faction in many important city offices.  
Since that time pork, cigars, cigarettes,  
drugs and many other things tabooed  
by Dowie have been sold.

Last week, by purchase, Voliva ac-  
quired control of the city. He caused to  
be posted in a conspicuous place a sign  
bearing the legend: "Zion City, the  
perfect city. No tobacco, no whiskey,  
no theatres, no doctors, no drugs, no  
pork, no oysters. It is a clean city for  
clean people."

Later Voliva, with five hundred ad-  
herents, paraded the streets and were  
attacked by the Independents. Last  
night night negroes, armed with rifles,  
guarded the sign posted by Voliva and  
this morning they were relieved by four  
armed men.

Voliva, in an interview to-day, said  
that guards would be maintained until  
after election, April 18, when the or-  
thodox Dowleites expect to be victori-  
ous. He said:

"The Independents—indeed, I should  
say—secured control two years ago. So  
shameful has been their rule that over  
forty families have left the city. We  
are in control now and will return to  
the good old order. Next election we  
will skin them alive and hang their  
hides up to dry."

The Independents are preparing to  
resist Voliva desperately. The indus-  
tries founded by Dowie are being ne-  
glected and there is great suffering  
throughout the city. Grocers report  
that the sale of food is nil, because the  
people have no money.

## WOMAN GUARDED IN COURT ROOM

Is Placed on Trial Charged  
With Having Killed Five-  
Year-Old Son

Albany, N. Y., March 6.—The trial of  
Mrs. Edith Melber, for the murder of  
her five year old son, whom she killed  
by giving carbolic acid some months  
ago, because it is alleged she wanted  
to marry a man who did not like the  
lad, began here this afternoon.

Owing to the fact that popular feel-  
ing is against her and citizens are still  
much wrought up on account of her  
act, she is being heavily guarded in  
the court room. Two deputies are sta-  
tioned at the side of the prisoner's  
chair and several more are scattered  
among the spectators.

The prosecution announced that it  
will demand the death sentence. The  
defense will plead insanity as an ex-  
cuse for the murder.

Her attorneys assert that Mrs. Mel-  
ber has developed quick consumption  
and that she has not long to live, no  
matter what the verdict of the jury  
will be. That the woman is a victim  
of some disease was easily seen when  
she was brought into the court room.  
She was pale, emaciated and could  
hardly walk to the bar.

## OBITUARY RECORD

The funeral of Mrs. Emma Crocker took place this afternoon at 2.30 o'clock from the Hanna chapel. Rev. A. E. Roberts conducted the service. Interment was made in the Ross Bay cemetery.

The death occurred yesterday morning of Mrs. Gertrude Goodman, aged 57 years, at the family residence, 2213 Spring road. The deceased was a native of Iceland and had been a resident of this country for about twenty years. She is survived by a husband, Baldwin Goodman, five sons and two daughters. The funeral will take place from the Hanna chapel, where the remains are now resting, on Wednesday afternoon at 2.30 o'clock.

The funeral of the late Mrs. Rosamund Dean, relict of Solomon Dean, took place yesterday afternoon at 2 o'clock from the family residence, Saanich, Rev. F. W. Thurston, of St. Stephen's church, conducted the services. The pall-bearers were: H. Fuckle, G. Dawson, W. Mitchell, A. Rex, H. F. Haldon and F. Turcotte. Interment was made in the Shady Creek cemetery.

Michael Hayes, another old-time resident of the province, passed away yesterday morning at an early hour at the family residence, 925 Park street. The deceased was 71 years of age and before coming to Victoria was for 25 years a merchant in New Westminster. Besides a wife residing here, he is survived by one brother in Prince Rupert and a sister in Boston. The funeral will take place on Tuesday morning at 8.30 o'clock from the house and shortly afterwards from the Roman Catholic church. Mass will be celebrated by Rev. Father Latimer. Interment will be made in Ross Bay cemetery.

The funeral of the late Navajo Hat-surudo took place this afternoon from the Victoria Undertaking parlors at 2.30 o'clock to Ross Bay cemetery.

The death occurred at the family residence "Inse," Foul Bay road, on Saturday of the infant son of Mr. and Mrs. A. D. Crease. The funeral took place yesterday afternoon at 4 o'clock from the house, where services were conducted by Rev. William Barton, to Ross Bay cemetery.

The remains of Hannah Mary Brown, nine-months-old daughter of Mr. and Mrs. David Brown, 2514 Shuborne street, were laid to rest this afternoon in Ross Bay cemetery.

The death occurred on Saturday at the family residence, "Beachdrive," Oak Bay, of John Rogers, aged 15 years. The deceased was a native of Tacoma, Wash. The funeral took place yesterday afternoon from the house, and shortly afterwards from the Christ Church Cathedral. Services were conducted at both the house and the church by the Very Rev. Dean Doull. There was a large attendance of friends and numerous beautiful floral wreaths were sent. In the church the hymns "Lead, Kindly Light," and "Nearer, My God, to Thee," were sung. The pall-bearers were: R. T. Swinerton, L. Gurney, H. Barnacle, F. A. Sparks, Dr. D. B. Holden and H. B. Robertson. Interment was made in Ross Bay cemetery.

Joseph F. Shortt, for twenty years a resident of Toronto, died Sunday last. Deceased, who was in the harness making business, was about 63 years of age, and had been in the trade for the greater part of his life, at first in Oshawa, and latterly in Toronto. He was an Anglican, and an active member of St. Anne's church. He is survived by his widow, an unmarried daughter and four sons, Frank, of New York; William, of Victoria; B. C.; Joseph and Charles Shortt, of Toronto.

**NEW BRITISH PEERS.**  
London, March 6.—no selection to the peerage is announced by Sir Edward P. Tennant, Bart., head of a well known firm of chemical manufacturers of Glasgow. The new peer is a brother of Mrs. Asquith, wife of the Prime Minister. As a Liberal he represented Salisbury in parliament from 1896 to 1910, being defeated in the latter year.

## DEBTOR MUST STAY TEN DAYS IN JAIL

Commitment Order on Judgment Summons Made Against  
Melvin Parry by Judge

A commitment order for ten days imprisonment was made by Judge Lampman this morning against Melvin Parry, who has failed to keep faith with the court regarding payments of \$10 per month upon a judgment summons order made against him last year. H. C. Hamilton, solicitor, appeared for the judgment creditor in County court this morning, and said Parry owed \$50 on the original account, which was the full amount of the debt. He had for some time during January and February been living at the Empress hotel, and had made promises of payment, which he failed to keep. At the January sittings of the court he wrote asking to have the matter stand over till the March court. This morning he was not in evidence and no payment had been made. In fact nothing had been heard from him, said Mr. Hamilton. He resides at Vancouver. Judge Lampman took his seat on the bench after a prolonged absence through illness. Dates were set for the March County court list, and a number of other judgment summonses dealt with.

## LOCAL NEWS

The contract for two frame residences to be erected on View street has been awarded by Mrs. Savage to J. Parker.

The council of the board of trade met to-morrow forenoon at 10.30, when it is expected that important business concerning the development of Victoria will be under discussion.

The city solicitor, at the next meeting of the council, is expected to give an opinion on the application of the Victoria Creamery Company for a permit for the erection of a stable on Discovery street, which was refused by the building inspector.

At the regular meeting of the Natural History Society to-night the subject of discussion will be scientific dredging as practiced at Millport Marine Biological station. Fifth of Clyde, the speaker being John Muir, who was formerly connected with the station.

The fire brigade was called last night to a stable fire at Toronto street and Park road, where D. K. Chugrass, who stables his horses, the fire, in the roof of the stable, was first seen by a lad, who turned in the alarm. Fire Chief Davis responded and extinguished the blaze with the chemical engine.

The inland revenue returns for February, 1911, were as follows: Spirits, \$14,178.22; malt, \$2,449.22; manufactured tobacco, \$588.40; raw leaf tobacco, \$1,032.24; cigars, \$389.60; mail liquor, \$374.63; other receipts, \$1.66; total receipts, \$19,565.76. The total receipts for February, 1910, were \$15,565.08.

Two more apartment houses are already planned. One of them is to be situated on the southwest corner of Fort and Quadra streets, is to be three stories, and the estimated cost is \$20,000. Max Leiser is understood to be behind the project. The other is of smaller dimensions and will be located between Douglas and Blanchard streets. Dr. Milne is the enterprising owner in this latter development.

An order-in-council has been passed by the federal government authorizing government savings banks and the post office savings bank to increase the total amount of deposits to be accepted from any one person from \$1,000 to \$1,500 per year, and the maximum balance exclusive of interest, from \$3,000 to \$5,000.

The elegant automobile owned by B. J. Perry, driven by a \$120-a-month chauffeur, and the envy of joy-riders, which Mr. Perry proposed to take to Europe with him directly, has been temporarily withdrawn from the public gaze, because B. J. Perry tried yesterday to do some driving. When, on day to do, the chauffeur said to Linden avenue "shut off the juice, throw out the clutch and put on the brake," Mr. Perry forgot the clutch, put on more juice and took his foot off the brake bar. The machine instantly responded, climbed a tree, and coming down again crashed through a fence into the front garden of a Linden avenue residence. The occupant of the machine, with his proverbial luck, escaped unhurt.

The concert given by the men of the Rainbow, at the W. C. T. U. mission hall on Saturday night was one of the best entertainments ever given. The mission hall was packed, all available space was arranged by Mrs. Boyden and Miss Harcourt, whose assistance at the piano helped to make the concert the great success it was. The president, Mrs. Wellwood, opened the proceedings, and after a word of welcome to the sailors introduced Leading Shipwright Dowd to act as chairman of the evening. A splendid evening was brought to a close by singing God Save the King. Refreshments were served to the party by ladies of the W. C. T. U. Those contributing to the concert were Mrs. Boyden, Miss Harcourt, Delia Howard, Miss Gladys Stelmets, Peter Over, Mrs. Smith and Joliffe, Chief Armorer Swallowwood, Shipwright Hellett, Ship's Boys Howe and Blair.

**MURDERER WOULD NOT ESCAPE.**  
Springfield, Mo., March 4.—Although under sentence to hang this month, Eugene Tucker, recently convicted on a charge of murder, refused to escape from the county jail here, when given the opportunity. When two other prisoners were forced their way out of the jail they pleaded with Tucker to join them, but he refused to do so. The prisoners who escaped were later captured.

## OFFICERS HELD BLAMELESS

No Charges Against Navigators of Steamship Cottage City—Investigation Completed.

After a careful consideration of the evidence taken in the case of the stranding of the steamship Cottage City on Willow Point, Vancouver Island, near Cape Mudge, January 26, Capt. Bion B. Whitney and R. A. Turner, United States marine inspectors, have found no grounds for preferring charges against any of the officers and Saturday announced the case. The testimony of Capt. A. C. Jansen, master of the Cottage City, February 23, showed that the vessel had been proceeding during the greater part of the day in a blinding snowstorm. A strong adverse tide further complicated the situation and shifted the vessel to the westward after she proceeded at half speed on account of the snowstorm. The testimony of Capt. Jansen was corroborated by the testimony of other witnesses, taken February 27 and March 1.

Investigation of the stranding of the steamship Zepora, Capt. J. H. Hober, master, on Nesbit Reef, Zarembo Island, on December 12, 1910, resulted yesterday in the dismissal of the case. Testimony taken at the hearing February 6 and 17 showed that the night was unusually dark and a gale of wind had blown fifty miles an hour down the island prevented the vessel from keeping her bearings.

## MAGNIFICENT SCENERY AT HOPE

Where shall I go for my vacation this summer? That is a question which before many months will agitate the most of us. Perhaps no better place could be suggested than Hope, B. C. This coming metropolis is only a few hours journey from Vancouver. There is splendid hunting and fishing in the neighborhood. The scenery is unrivaled. From peaceful sunlit glades and verdant dales through all the fascinating changes of the sublimity of rock-cragged gorges and snow-encumbered crags of Holy Cross Mountain, the eye is treated to a panorama unsurpassed by scenes of world-famed renown. Hope is another Lucerne—that is the opinion of travelled folk. Numbers of quiet holiday people are already looking up lots, many intending to build summer residences here.

## PERSONAL

The many friends of James Andrews, Head street, Esquimalt, who has been confined to St. Joseph's hospital for the past two weeks, will be pleased to learn that he returned to his home this morning very much improved in health.

Mr. and Mrs. J. B. Barbour, Balmoral, Man., are visiting Mrs. Barbour's sister, Mrs. J. W. Orr, 223 Harbinger avenue.

Hayter Reed, superintendent of the C. P. R. hotel system, had not reached the city at noon to-day, though there was an expectation that he would be in on the afternoon boat from Vancouver. While here Mr. Reed is expected to make some announcement regarding the Hotel and to make a statement also as to the rumors which have been afloat to the effect that the company contemplated erecting a summer hotel at Oak Bay.

## Too Late to Classify FOR THE MOST POPULAR FORM OF ADVERTISING IN TOWN TRY THIS COLUMN

**JAMES BAY**—We have several pretty homes in this district. Inquire at Dalby & Lawson, 615 Fort street.

## "UNCLE JOE" LEAVES SPEAKER'S CHAIR

Resolution Presented by Champ  
Clark Thanking Cannon for  
His Services

Washington, D. C., March 6.—With  
his colors nailed to the mast and show-  
ing to the very last minute, the fight-  
ing front for which he has always been  
famed, "Uncle Joe" Cannon closed his  
last term as Speaker of the national  
house when the first congress ended  
on Saturday.

"I leave here without regret," was the  
burden of his swan song: "With malice  
toward no member with whom I have  
ever served."

Despite his weariness as the result of  
a continuous session of 26 hours, Can-  
non enforced the absolute rule dur-  
ing the filibuster by Fitzgerald, which  
ended the session, and fought the  
Democrats desperately until Payne  
capitulated and abandoned the tariff  
board bill.

When his last battle was ended Can-  
non left the chair and was replaced by  
Underwood of Alabama. Champ Clark,  
speaker-to-be in the next house, then  
introduced a resolution thanking  
Speaker Cannon for his services.

"This has been one of the most im-  
portant congresses," said Clark, "and  
one of the stormiest in history. There  
have been more bitter words and more  
pious promises than in any preceding  
congress. I offer this resolution be-  
cause, at this moment Joseph Cannon  
is one of the greatest historical per-  
sonages in our country."

A great demonstration followed  
Clark's declaration. Underwood, in the  
chair, vainly pounding for order. In  
the midst of the turmoil, Clark and  
Mann escorted Cannon to the chair and  
dead silence fell as "Uncle Joe" began  
to speak.

Speaker Cannon in reply said:  
"When I was escorted to this desk as  
Speaker, I said that the Speaker  
should be the servant of the house, and  
since that time I have never forgotten  
that my duty was to preside in accord-  
ance with the rules of the house with  
courtesy and with impartiality."

"It is necessary with the vast amount  
of business before this house that there  
by a selection by the majority as to  
which business shall be considered. The  
rules must govern."

Speaker Cannon then directed Champ  
Clark to read the resolution of ad-  
journing and at its conclusion re-  
sumed:  
"I leave here without a regret. I  
have performed my duties to the best  
of my judgment under the rules of the  
house. I have no malice in my heart  
toward any colleague or toward any  
member with whom I ever served. My  
friend, the speaker-to-be, has bidden  
me farewell as Speaker. I agree with  
him, for at 75 years, in the course of  
nature, I could not hope to and would  
not occupy this place again. So I will  
fill my place under his gentle rule as a  
member of the house. I declare the  
third session of the first congress ad-  
journed."

## FEDERAL TROOPS REPULSE REBELS

Six Mexican Soldiers Killed  
When Insurgents Attacked  
Santo Rosalia

Torreon, Mexico, March 6.—Four  
hundred rebels under Francisco Villa,  
who attacked Santo Rosalia were re-  
pulsed by a volunteer force after four  
hours' fighting. The rebels gave up the  
attempt to take the town upon hearing  
of the approach of a federal force. The  
rebel loss was not known, but the fed-  
erals were said to have lost six killed  
and several wounded.

Captain Curiel, who was captured in  
a train from Mexico City near Jimulco  
a week ago, has arrived safely in Tor-  
reon. He said he had been left tied in  
a station at Jimulco, but escaped. A  
Mexican fruit vendor of Jimulco saved  
the life of Engineer Hill of the train  
in which Curiel was captured. Hill  
was ordered by the leader of the rebels  
to be shot for attempting to save Cu-  
riel from discovery. The sentence was  
about to be carried out when the fruit  
vendor claimed Hill as a friend and  
persuaded his companions to desist.

Workmen are repairing the railway  
south of this city under military pro-  
tection, and it is believed trains will  
be able to run into Torreon within a  
few days. Of the bridges burned by  
the rebels only a few suffered more  
than the destruction of the wood of  
the ties along the top.

Indians Aid Rebels.  
Douglas, Arizona, March 6.—The  
mining camp of El Tigre is still held  
incommunicado by the rebels under  
Blanco. The wires remain cut, and  
couriers sent out by Commissioner Vas-  
quez, of Agua Prieta, to procure in-  
formation have not been heard from.  
It is believed they were captured by  
the insurgents.

A cattleman who talked with Blanco  
says that the rebel leader has a large

## This Morning Commenced a Dem- onstration of the Far-Famed "Nemo" Corset by Mrs. Craig of New York

THE "NEMO CORSET" has been proved beyond a doubt, a  
complete triumph in corset manufacture. Three of its great-  
est qualities are: Flexibility, Artisticness and Durability. The  
"Nemo" moulds a stylish contour, establishing a correct poise,  
whether standing or sitting.

The charming lines of beauty that attract the eye in a gown worn  
over a "Nemo" Corset give semblance of style distinction that de-  
lights the cultivated taste, affording the wearer that peace of mind  
that comes only from looking her best.

The "Nemo" has an individuality of its own, an individuality  
that Mrs. Craig will be pleased to point out to you, if you'll be good  
enough to attend the demonstration.

## Exquisite Spring Costumes

The serious minded Club Woman, the Society Woman, the Busy Housewife, the Business Woman,  
the College-bred Woman, the Pleasure Seeker and all the other women who are particular about the  
Style, Quality and Workmanship of their Suits, will, by choosing here, eliminate any possibility of  
disappointment.

### Every Lady Suited at "Campbell's"

We are offering exceptional values at \$16.50, \$18.00 and \$21.00. At \$25.00 we are showing the great-  
est value giving ever attempted, every model being lined with the best Skinner satin and of fabrics  
often found in more expensive costumes. We have a number of outside sizes and **\$15.00**  
an awfully good line of Misses' Suits up from.

The chief characteristic of this store is our showing of positively exclusive Spring Models. A  
glance at our windows will confirm this.

A CHARMING OLD SCOTCH WOMAN was asked why her fruit cakes were always better than  
those made by anyone else. She modestly replied: "It really must be because I put the very best  
things into it." And that is the reason why the quality of our Suits merit your attention.

## REBUILDING SALE OF

# FURNITURE LINOLEUM, Etc.

MANY SATISFIED CUSTOMERS have found it to their advantage to make their furni-  
ture purchases now. Our usual low prices have been cut to profitless proportions as  
we are anxious to clear out our large stock before the builders commence on our new addi-  
tion. We must have room for the builders to work in, so now is your chance to secure REAL  
BARGAINS in furniture, carpets and linoleums. As to the quality of our goods, our policy  
is to sell the best for the price asked and our guarantee "Goods as represented or money re-  
funded" protects you absolutely. Free city delivery. Free packing and shipping.

### BUFFET

Imperial surface golden oak,

## Notice to Advertisers

Owing to the rapidly increasing circulation of the Times and the growing demands for space, it has become absolutely necessary to place a limit upon the time at which changes for advertisements will be accepted and guaranteed publication. Copy for changes must be handed in to the business office not later than 3 p. m. the previous day. Arrangements for the insertion of new advertisements must be made before 10 a. m. day of publication. Class 4 advertisements before 2 p. m.

The above rules are made for the benefit of readers of the Times, who insist upon the paper being delivered as early in the evening as possible.

## CHEAPER FOOD.

"How much shall we in British Columbia benefit by the proposed reciprocity agreement?" is a legitimate question and one that deserves an answer. During a large part of the year, in fact practically all the time, British Columbia imports food products. At the present time all these food products have to pay duty, most of which duty will be removed under the reciprocity agreement. The following table shows the amount of Canadian and United States duty at present collected on each article, the whole of which will be removed if the agreement is put in force:

	Canadian Duty	U. S. Duty
Cattle less than one year old	25 per cent.	\$2 each.
Cattle under 14 in. value	25 per cent.	\$2.75 each.
Cattle over 14 in. value	25 per cent.	25 per cent.
Horses under \$150 in value	25 per cent.	\$30 each.
Horses over \$150 in value	25 per cent.	25 per cent.
Swine	15c. per lb.	\$1.50 each.
Sheep	25 per cent.	\$1.50 each.
Lamb	25 per cent.	75c. each.
Wheat	15c. per bus.	25c. per bus.
Oats	15c. per bus.	25c. per bus.
Barley	15c. per bus.	25c. per bus.
Peas (dried)	15c. per bus.	25c. per bus.
Beans (dried)	15c. per bus.	25c. per bus.
Corn	15c. per ton.	\$4 per ton.
Hay	25c. per bus.	25c. per bus.
Potatoes	40c. per bu.	25c. per bu.
Apples	\$1 per 100 lbs.	25c. per bus.
Butter	4c. per lb.	6c. per lb.
Cheese	5c. per lb.	6c. per lb.
Eggs	35c. per dozen.	25c. per dozen.
Pine lumber	Free.	\$1.25 M. ft.
Salt (in bulk)	1c. per 100 lbs.	7c. per 100 lbs.

With this table before him it should be quite easy for anyone to see that the reduction in the cost of living will be very great. We have pointed out before, and we take this opportunity of doing so again, that not only will we benefit by the amount of the reduction of the duty on imported goods, but we will also be in a position to purchase much Canadian produce at a cheaper rate, as the removal of the duty will reduce the price by just that much. Just how much difference the reduction

will make in the actual cost of living to each person only experience will show; but as there is a general reduction on most of the food staples the saving to each person will be considerable.

The table shown also indicates clearly the amount of reduction against Canadian goods going into the United States. The removal of the duties by that country is a concession which no one expected, and the Liberal government must be congratulated on having secured something which governments have been trying to secure for many years past, without success.

To Victoria the removal of the Canadian duties will appeal very strongly. Here we have for several years been crying out about the continual advance in the prices of food. Our board bills are much too high. A general reduction will be welcomed by everyone in Canada, but by no one more than by those who reside in this city.

## NORTHERN BRITISH COLUMBIA.

The great development that may be expected as a result of the building of the Grand Trunk Pacific Railway was indicated by W. P. Hinton, general passenger agent of that line, who was in Victoria at the week-end. In discussing the possibilities of the development of Northern British Columbia, Mr. Hinton said the agricultural lands, in the belt through which their line passes, were capable of sustaining more farmers than there are people at present in the whole of the province.

As there are usually ten other persons to one farmer in a district, it is easy to see what the possibilities of development are. Much of the land along the line of railway is well suited for mixed farming, and most of it will be easily brought under cultivation. This is only one small belt, and does not include the large Peace River country, where both Provincial and Dominion governments have large areas of splendid land, nor the Naas River country, neither does it touch the immense districts lying midway between the Grand Trunk Pacific and the Canadian Pacific railways.

Mr. Hinton was very enthusiastic as to the future of this province. He said that even this year, as a result of the completion of the new line as far as Kitaleas, there would be a great rush of miners and others to the Skeena Valley districts, and much development work would be done this summer. The Grand Trunk people are making provision for extra freighting to the north by putting on the steamer Prince Rupert to run between this port and Prince Rupert, the Queen Charlotte Islands being served by a steamer which has recently been purchased for the purpose.

Mr. Hinton, because of the position he holds, is a man who should know something about the prospects. He is fairly bubbling over with enthusiasm in regard to the future, and it may be assumed that he speaks of what he knows. The prospects of Northern British Columbia are almost boundless and the prosperity of one part of the province is reflected in every other. We on Vancouver Island will rejoice to see the progress of the north, and must reap some of the advantages which come from nearness to the scene of action, and especially from being an important distributing point from which all the coast steamships ply.

## AN IMPERIAL ASSEMBLY.

Preparations for the Imperial Conference in May next are again arousing interest in the subject of Imperial Federation. Questions of tariff or no tariff, or reciprocity within the Empire or with other nations, have nothing whatever to do with the conference at present. It may be quite possible to have an Imperial Federation which would not in any way be affected by or dependent upon tariffs.

It seems hardly likely that any definite steps will be taken this year with a view to a federation of the Empire, but every Imperial Conference is a preparation for this great movement. The conferences bring the different parts of the Empire more and more into touch with each other and form the foundation work on which to build a federal constitution. It is possible that there may never be a written constitution of the Empire, but that it may grow naturally out of the conferences, which will be held more and more frequently until they constitute an Imperial Assembly. The premier of each self-governing British country, with other prominent men therefrom, might well be spared for a month or two each year to meet in London for the purpose of discussing matters of Imperial importance. It would be useless for the men who constitute the Imperial Assembly to be other than leading men from the different national governments, for their decisions would then have no weight. What men could Canada send to such an assembly other than leading members of the Dominion government? The additional men which these delegates must undertake in connection with their mission would perhaps add too much to their already onerous duties, but they might be relieved of some

of the detail work at home in order to devote more time to Imperial affairs.

There should be no necessity for an Imperial Assembly to be composed of many members, but what is necessary is that the members shall be in close touch with the different home governments, in order that what they do or say may be binding upon each country represented. Under the British system of responsible government this is made much easier than it would be if we had such a form of government as that of the United States or France. In British countries the premiers are the first citizens, and the only men that can speak with authority. They are always able men, for only able men can command the respect and confidence of the people of such countries as Great Britain, Canada, Australia, New Zealand, or South Africa. An Imperial Assembly composed of Premiers Anquith, Laurier, Fisher, Botha, Ward, and such other men from the governments of each country as may be chosen would command the respect of the world. Their influence on world politics would be immense. Their decisions would be likely to be supported by the electors, and they would form the unifying body which would bind more closely the self-governing nations which now make up the British Empire.

The doctrine of the Native Son had new exemplification at the premier's office on Friday. It was a case, as it were, of native son appealing to native son. Premier McBride as the big chief of the white native sons, replied, we are told, in a "diplomatic address," and declared "this question would never have been raised had it not been for the pernicious activity of some white men, who should have known better." His advice was that "if they had any legitimate grievances" to go to Ottawa. "Pernicious activity of some white men" is a good line. We recommend it to the careful and also the prayerful consideration of "some white men" who start dangerous "native son" agitations, "better terms" agitations and wickedly dangerous "Down with Asiatics" agitations. It's all very well to apply the torch to society for election purposes, but once aflame the bounds no man knoweth. It may not always be so easy as it has been to get out of all difficulties by "putting it up to Ottawa."

A Methodist minister in Calgary has been flaying the newspapers for publishing theatrical notices. And yet, according to the report, the sermon in which he did this was about the most theatrical deliverance that has been heard for many a day. We advise Rev. Mr. Martin to come farther West. We enjoy theatricals out here, even from the pulpit.

The grain growers of the prairies demand the increase of the British preference to fifty per cent. The probability is that they will have their demands fulfilled. Let the reciprocity measure pass, and then it will be time to think about increased British preference.

Mr. Fielding says reciprocity is for the wealth and prosperity of the masses, and Mr. Fielding is a man whose advice is worth a good deal.

The chief features of the new constitution secured by the state of Arizona are provision for the initiative, referendum, and recall.

## FRANCHISE MUDDLE.

To the Editor:—Last fall, to my knowledge, two parties who had paid the road tax, under protest, were informed upon presenting the receipt it would be deducted when paying their land tax. This I witnessed actually done.

Now what law is there to prevent those buying under an agreement of purchase from declaring themselves, pay the road tax, and upon paying their taxes, present the receipt and be nothing out, the city gaining their vote?

## BREAK COLUMN OF ENGINE.

Prince George Also Hit Wharf Making Landing—Rupert Goes in Her Place.

When the G. T. P. steamer Prince George, Capt. Robertson, was making her way into Seattle harbor on Sunday morning she struck the new dock there, forcing her way into it for some distance. It was, pitch dark at the time and the vessel's engines were stopped, when out of the darkness loomed the wharf right in front. The order for full speed astern was given but while the engineer was executing it one of the columns of her engines snapped and the steam had to be shut off. Her momentum could not be checked and she struck the dock. The damage done to the wharf amounted to several hundred dollars but the vessel was uninjured, a little paint being scraped from her bow.

Last night at 10:15 o'clock the George returned to this city with one engine working and tied up at the outer dock. Fortunately the Prince Rupert, Capt. Barney Johnson, had completed her overhauling and was prepared to leave. The work of transferring stores, passengers and freight from the George to the Rupert was rushed with all speed and the latter vessel, sailing in place of the injured steamer, got away little behind time. She steamed from Vancouver on time to-day and will return to port next Saturday night.

## CONSERVATIVE ALARMED.

Lord Amthill Fears Reciprocity May Lead to Union of Canada and United States.

London, March 6.—Lord Amthill, Conservative, led the debate on Canadian reciprocity with the United States in the House of Lords to-day, and attacked the proposed agreement vigorously. He seemed alarmed at the reports that such a policy might finally lead to a political union between the United States and Canada. In the connection he said: "American statesmen freely discussed annexation recently and they are still discussing it. The inactivity of the administration is forcing Canada to abandon the national policy of tariff preferences and to offer advantages which should be ours to the Americans. The policy which now aims toward a commercial union is likely to lead to political union."

Lord Amthill then criticized Ambassador Bryce for his failure to inform England of the "situation," and his criticism brought Lord Morley to his feet.

Lord Morley defended Bryce, and finally the debate was adjourned pending the arrival of documents showing how Bryce fared in the recent negotiations between representatives of Canada and the United States in regard to the reciprocity agreement.

## CHOLERA AT HONOLULU.

Federal Government Will Probably Be Asked to Take Charge of Situation.

Honolulu, March 6.—It is believed that the territorial legislature, which is now in session, will ask the federal government to take charge of the cholera situation in Honolulu. Two more deaths and three new cases in the last twenty-four hours brings the total up to 18 cases and 31 deaths.

The legislature has appropriated \$25,000 as an emergency fund for the board of health, with which to handle the epidemic. The legislature will also pass a bill giving the health authorities full power to enforce sanitary regulations, the present laws being ineffective in this emergency.

## UNIONISTS REJOICE.

London, March 6.—The Morning Post and other Imperialist organs this morning rejoice that the United States senate has done England's work in rejecting the reciprocity agreement with Canada, and expresses the hope that the Democrats will so confuse matters with low tariff amendments that the special session of congress will prove abortive.

The Pall Mall Gazette says that if Sir Wilfrid Laurier now persists in driving straight ahead with the agreement he will not only be challenging Canada's amour propre, but flouting several sagacious and very practical considerations. After Saturday's events at Washington reasons for delay at Ottawa are morally overwhelming.

Branches: Vancouver and Nanaimo.

A coroner's jury on Saturday afternoon returned a verdict of death from natural causes at an inquest held in the city hall to determine how Naofito Matsumoto came to his death.

Japanese had been discovered dead in his room in a house on Piquart street Thursday last. Dr. George Hall gave evidence that deceased died from hemorrhage of the stomach.

The fire chief has ordered alterations to the additional seats placed in the rear of the Victoria theatre with the introduction of the recently constructed new entrance. The extra seats, the fire chief adds, are in rows too close together, not affording sufficient space for exit as required by the by-law. The alterations required to be made will be made at once by the theatre management.

Good progress is being made by Dinadale & Malcolm, the contractors having in hand the work of clearing the site for the extension of View street from Broad to Government street, and one is now enabled to get a fairly good idea of how the street will appear when the work is completed. The improvement will add greatly to the appearance of that part of the business section of the city.

It is announced by the deputy minister of agriculture that the provincial government will endeavor to obtain stumping powder for farmers at the lowest possible rate, and he is now trying to ascertain approximately what the requirements will be, with a view to purchasing in car-load lots. The powder will be distributed through secretaries of farmers' institutes.

The Temple of Fame was repeated on Saturday afternoon at the Victoria theatre by the original cast, composed of members of the Metropolitan Young Ladies' Club. The success of Wednesday evening was duplicated. Mrs. Michael Hallward was seen in the "Foton Scene" from Romeo and Juliet, her rendering of which was artistic and creditable.

The work of revising the lists preparatory to the new civic elections is proceeding somewhat slowly. Householders are registering in comparative small numbers. It is believed that the act that householders must again pay the tax is having a deterrent influence on householders, though Mr. Northcott points out that householders should remember that the payment of the tax now will entitle them to vote next year, and that anyway it is due and collectable now.

In the police court during the last month there were 173 cases before Magistrate Jay, of which 89 were convicted, two were sent for trial, 10 discharged, and 72 held for safekeeping. Arrests numbered 31 and summons cases 28. The offences were classified as follows: Assault, 4; attempt to obtain goods by false pretences, 2; burglary, 1; criminal assault, 1; cruelty to animals, 2; city by-laws, 12; drunkenness, 56; Fruit Marks Act, 1; fighting, 2; highway robbery, 2; liquor license, 1; malicious injury to property, 2; obscene language, 1; obtaining money under false pretences, 1; possession of stolen property, 1; passing worthless cheques, 2; stealing, 3; vagrancy, 7; safekeeping, 72.

BIG BUSINESS IN  
THE REALTY MARKET

Heavy Transactions in City  
Properties and Boom in  
Home Sites

Perhaps the best promise for the future of Victoria is the faith of the people who are investing their money in home sites; and that the promise will be a pregnant one is proved by the ever increasing loyalty to that faith. The past few weeks have been most productive for the city's development. The present has been laying up assets for the future with remarkable insistence and unwavering enthusiasm. The realty market has experienced a boom that would almost justify the dreams of the old discredited prophets of the city.

Perhaps one of the most agreeable features of the market during the past week has been the tremendous business that has been done in home sites. Nearly every real estate firm in the city can show a long list of properties of this class that have been sold to residents who desire to invest in a substantial stake in the city, and not a few of the firms can turn to pages showing transactions on a very large scale.

During the past week the corner lot on Douglas street and Princess avenue, with a 200-foot frontage on the former, was disposed of by Cuthbert & Co. for \$60,000. That is but one instance. During the week the firm has put through deals involving \$170,000. One of the properties included in this amount brought \$50,000, and another of smaller area, and situated near the Foul Bay car line, brought \$24,000.

The Griffith company put through a deal the other day for \$24,000. The property sold has a forty-foot frontage on Yates street, between Blanchard and Quadra.

Green & Burdick Bros. got \$15,000 for a piece of property located on Discovery street, back of Douglas street. Remarkable business was also done by Day & Boggs, who sold off an entire subdivision on Grafton street, comprising 32 lots.

The committee of the "Victorian Order of Nurses" will meet to-morrow at 2.30 p. m. in the city hall.

There will be no meeting of the city council this evening. The next session will probably be held on Friday evening next.

Rev. Wm. Stevenson will give the Baptist Young People's Union of the Emmanuel Baptist church a talk on "How some men get their wives" this evening. All are welcome.

Your Trees—Spray and prune now. Sprays \$2.25, \$2.25, \$4.50, \$1.50, \$1.25, \$1.00, 70c, and 60c. Pruning hooks \$1.30 and \$1. Pruning shears \$1.00, 60c, 40c. Pruning knives 80c. Pruning saws 75c. At R. A. Brown & Co.'s, 1302 Douglas St.

Brown & Symons, hack and livery men, will very shortly go into their new premises, which are being erected on Piquart street, between Douglas and Blanchard streets. The building will be three stories and will be fitted up with every stable facility and convenience conceivable. Elwood Watkins, architect, is responsible for the work.

Henry George, Jr., son of the famous author of "Progress and Poverty," "A Perplexed Philosopher," and many other notable economic works, will very shortly pay a visit to Victoria in the course of his lecturing tour. George the younger represents the seventeenth New York congressional district. He is a well-known traveller and writer.

The unchangeable purpose of God in the choice of Israel and the British race, demonstrated unconsciously by Spurgeon, Alison, Cressy and others, will be the subject dealt with on Tuesday at the Victoria branch of the Imperial British Israel Association meeting, in No. 1 hall, A. O. U. W. building, Yates street. The public are welcomed.

A. E. Forman, the engineer appointed by the local government to supervise the construction of the Dallas road sea wall, has written to James L. Raymur, requesting a public retraction of the statement that he (Mr. Forman) had stated that "the monetary side of the question did not matter to him and that he would put in any additional work wherever he saw it was required." Mr. Forman adds in this connection that he has at no time or to anyone made such a statement.

MUCH WORK UNDER  
DAY LABOR SYSTEM

Pending New Election Civic  
Forces Are Being In-  
creased by Engineer

The impasse which has been reached in civic affairs owing to the recent election having been invalidated and a new one ordered is indirectly proving a boon to the laboring classes in the city, for pending the new election it is the intention of the city engineer to do all the work passed by day labor.

Mr. Smith said to the Times this morning: "By the enabling bill we are prevented from letting any new contracts, but that does not prevent us from doing a large amount of work by day labor, which had been authorized some months ago and which we may now proceed with. This consists in laying down a large amount of water pipes and making lateral connections on those streets which it is intended to permanently improve. I am, therefore, constantly increasing the force at this work and also on the sewer construction which had been started. There will be a large amount of work done by day labor until contracts can be awarded."

Mr. Smith added that just as soon as the new elections had been held contracts would be let for the big asphalt paving programme.

BUYS 144 LOTS  
AT HOPE

W. H. Trewartha-James, the manager of the Tree Copper Company, and one of the foremost mining engineers in the world, bought 144 lots in Hope a short time ago.

Mr. Trewartha-James expressed his intention of holding them. He is confident that values of real estate will increase very rapidly here. Its strategic position is incomparable, and of British Columbia, as it commands the torrential water power of the Coquihalla river—power sufficient to move all the wheels of trade of a giant city.

Another thing that is destined to send prices of Hope property soaring when investors realize it, is that the area of the city is forever limited by the rushing rivers and the eternal hills.

## WEATHER BULLETIN.

Daily Report Furnished by the Victoria Meteorological Department.

Victoria, March 5.—5 a. m.—The barometer is abnormally low throughout the Pacific slope, and rain has been general from Vancouver Island to California. The weather is mild in this province, fair and moderately cold in the prairie provinces.

Forecasts.  
For 24 hours ending 5 p. m. Tuesday. Victoria and vicinity—Light to moderate northerly and easterly winds, mostly cloudy, with showers, chiefly at night. Lower Mainland—Light to moderate winds, mostly cloudy and mild, with showers.

The next statutory session of the board of licensing commissioners will be held at the police court, city hall, on Wednesday next at 2.30 p. m. A considerable quantity of business is to come before the board, among the applications for transfer of license being one from I. H. Pickard, of the Capital liquor store, to the Hudson's Bay company's warehouse, Wharf street.

Although there is no intention of immediately proceeding with the local improvement work on Ontario street, between Erie street and Montreal, this thoroughfare has been closed to public traffic and will probably remain so for several months, this being necessitated by the fact that it is in an impassable condition. A great hardship is being imposed on the householders and coal and supplies. Until the new council has been elected and the contracts for paving let nothing can be done to improve the condition of the street.

On Saturday morning last a bicyclist had the misfortune to collide with a motor car at the corner of Douglas and Humboldt street. The man was rendered unconscious and was helped to the sidewalk, where a crowd collected. Stephen Jones, of the Do-

## CITY CHAMPIONS

### GOING DOWN HILL

**West's Are Beaten by Esquimalt—Only One Win in Five Games**

The West's evidently did all they were going to do this season when they won the city championship, their record since then being miserable. On Saturday afternoon they were beaten by Esquimalt, thus registering the fourth defeat out of five games played in the island series. The score was two goals to one.

The game could not be called exciting by the most optimistic of rosters, but at the same time neither team had much advantage in the play. The West's were handicapped by the absence of two of their speediest forwards, Muir and Johnny Peden, whose places were filled by McKittick and McDiarmid.

The first goal was secured by Victoria West from a penalty kick. Prevost took the shot and although the ball hit the bar, referee Walter Lorimer decided that it struck inside the goal on the rebound. Further attacks by the West's were repulsed by Wylie and Crawford, the latter of whom it will be remembered, performed so well for the West's in the City League. Shortly before the end of the half the Esquimalt forwards began to press hard, Buxton on the left wing being always to the fore. From one of his beautiful centres Slater slipped the ball past Lefevre, thus equalizing the score.

Only on the second half was Esquimalt's goal in danger. On that occasion the ball even passed Thomas, the goalkeeper, but a foul had been committed immediately before and from this the Esquimalt backs cleared. At about the middle of the goal which was the game was scored. Buxton and Slater were again responsible, the former centring and the latter taking the shot. The play of the West's became more vigorous and Crawford and Wylie were kept busy until the end of the game. They were always on the job, however, and the efforts of Slater and his boys were without result.

Walter Lorimer handled the whistle in a satisfactory manner. The teams were:

Victoria West—Goal, Lefevre; full-backs, Prevost and White; half-backs, Bayley, Fletcher and Thackeray; forwards, Sheritt, McKittick, Youson, Okell, McDiarmid.

Esquimalt—Goal, Thomas; backs, Crawford and Wylie; half-backs, Dakers (A.), Duffy, Greator; forwards, Wedgewood, Slater, Taylor, Hufte and Buxton.

#### STANLEY CUP TEAMS.

Ottawa, March 4.—Stanley Cup Trustee Foran announced Friday night that the board had decided to accept the challenges of the Galt, Prince Albert and Port Arthur hockey clubs. Prince Albert and Port Arthur have been ordered to play a qualifying series at Winnipeg, the winners of which will come east to meet the Ottawas. The Galt club, Ontario professional league champions, will then be taken on. Should Port Arthur or Prince Albert lift the cup then Galt will be obliged to go west for it.

The Phoenix, B. C., challenge is deferred until next season, and Moncton's application will also receive a six months' hold.

The dates for the matches have been definitely chosen. Port Arthur or Prince Albert will play March 13 and 15, Galt coming here on the 16th and 17th.

#### AMATEUR INTERNATIONAL.

London, March 5.—In the amateur international game on Saturday, England defeated Belgium by 4 goals to 0.

## WARDS TURN TABLES

### ON VISITING TEAM

**Locals Victorious in Hotly-Contested Game—Predictions Proved True**

In a game in which the two teams, Columbia College and North Ward, were neck and neck from start to finish, the latter nosed out ahead at the finish by the narrow margin of three points. The result was not unexpected, as with an odd exception, the Wards had the best of the play and their shooting was of a higher order. The final score was 27 to 24.

From the start the home team took the lead, at half time the score being 13 to 10 in their favor. The game was by no means free from rough work, but whether the Wards were entirely responsible for it, as the Westminster rosters claimed, is a matter of opinion. Their checking was closer than that of their opponents, but in the opinion of most of the spectators there was no intentional roughness.

Some of the shots played by the Wards were of an exceedingly spectacular order, Baines and McGregor being perhaps the stars in this kind of play. The visitors did not show up as well as they did the night before and in fact the result proved the truth of the statement, made by one of the local fans on Friday night, that the Wards would soon break up the great combination of the Westminster five. "Doug," Campbell refereed. The teams were:

Wards—Forwards, Brown, 2, and McGregor, 5; centre, Baines, 3; guards, Sweeney, 4 and McDougal, 1; Columbia College—Forwards, Kenny, 7 and McArthur, 11; centre, Ferguson, 3; guards, Priest, 4 and Draney.

#### LADYSMITH VICTORIOUS.

**Spectacular Finish to Game Played Between Juniors.**

In what was perhaps the most exciting game of never played in Victoria on Saturday, the Ladysmith Juniors succeeded in defeating the Wards by one goal. At full time the score was three all and the captains decided that the game must be played off. Ladysmith managed to register the winning tally in the period of play.

The game was fast and interesting, with no great advantage to either team. If the Ward forwards had not been so slow in rushing the opposing backs, however, the result might have been different. The absence of Humber, who was unable to turn out, was greatly felt by the local boys.

For Ladysmith, Wilkerson and Houston each scored two goals, and for the Wards, Dinsdale, C. Wolseley, and Mel-dram secured one apiece.

The teams lined up as follows: North Ward—Goal, Lane; full-backs, B. Stewart and Menzies; half-backs, Hole, Williams and C. Wolseley; forwards, O. Duncan, R. Meldram, McKenzie, Dinsdale, G. Wolseley. Shortly after the beginning of the second half, G. Wolseley was hurt and a substitute put on in his place.

Ladysmith—Goal, Morgan; full-backs, Fisher and Robertson; halves, Gourley, Houston and Davidson; forwards, Simpson, A. Battle, R. Battle, Ryan, and Lucas. Sid Thompson refereed.

#### SCOTTISH LEAGUE.

Glasgow, March 5.—Scottish league games played on Saturday resulted as follows: Aberdeen, 3; Morton, 1; Airdrieonians, 5; Queen's Park, 2; Falkirk, 3; Hearts, 1; Hibernians, 1; Clyde, 1; Raith Rovers, 4; St. Mirren, 0; Kilmarnock, 1; Partick, 1.

The wings of a flying bee vibrate more than 400 times a second.

## RACE FOR MORLEY

### CUP HAS STARTED

**Wards and Foresters in Lead—West's and Wanderers Again Tie**

The race for the amateur soccer championship of Vancouver Island and incidentally the Morley cup has commenced, and at the word "go" the Wards and Foresters have taken the lead, with the West's and Wanderers close behind, and Duncan and the Corinthians trailing in the rear.

Saturday's game between the Foresters and Corinthians was an easy thing for the former, who tallied five times and shut their opponents out completely. The score of the game was all in favor of the Foresters, who were almost too much superior to that of their opponents. The Corinthians forwards did not play badly, but it was like going up against a stone wall trying to get past Greg and Holland, the Foresters' full backs. Bessy, the goalkeeper, had practically nothing to do. Kelsall played a good game for the losers.

The West's and the Wanderers, commonly known as Baracas, played to a draw in their game on Saturday afternoon at Beacon Hill. The score was one all. The Baracas finished second in the Second Division City League, and those who played on the team in that league and are not playing in the island series will not consent to the name Baracas being used, so that the team is now known as the Wanderers.

A remarkable feature of the result of Saturday's game between these two teams is the fact that it is the third time they have drawn this season. Each time they met in the city league series neither team was able to come out ahead, and it looks as if the same thing were going to happen in the island series.

The game was even throughout. In the first half, with the wind in their favor, the West's scored their goal, and in the second period, with the same advantage, the Wanderers succeeded in tallying one. G. Bishop, for the Wanderers, and Luckett, for the West's, scored the goals. J. Young refereed during the first half and W. Sheritt in the second.

The Wards were victorious in their game with Duncan by a score of five to two. The villagers had the heaviest tally, but the speed of the Wards enabled them to overcome the former's advantage in regard to weight and to secure a rather easy victory. Every one of the North Ward eleven played in splendid style, and, for Duncan, Lipscomb and Lomax were the outstanding men. The teams were as follows:

Duncan's—Goal, Peel; full backs, Rivas and Lipscomb; half backs, James Bros. and Lomas; forwards, Rolston, Kingston, Finch, Hatters and A. N. Othor.

North Ward—Goal, Baker (J.); full backs, McDonald (L.) and Pike; half backs, Dakers (J.), F. Brown and J. Tunncliffe; forwards, McGregor, McIlroy, P. Sweeney, V. Hodgson and W. Muir.

## BAYS TOO SPEEDY FOR M'GILL TEAM

**J. B. A. A. Fifteen Wins by Narrow Margin—Students' Three-Quarters Slow**

In spite of their expectations of a rather easy victory, the J. B. A. A. Rugby fifteen only managed to win out against Vancouver McGill on Saturday by one point. The final score was six to five. This is by no means a criterion of the play, however, for the Bays had the ball within their opponents' 25-yard line fully half the time.

From the blow of the whistle the Bays began to press, and for the first ten minutes Johnson, the local full back, never touched the ball. When McGill did manage to get away one of the forwards made a forward pass and a scrum was called just past centre. Right here could be seen in what department the visitors shone. Their pack was far superior to that of the locals, and the collegians halves almost invariably secured the ball from the heel-out. The first chance for scoring came when McNeill, Vancouver's full back, instead of kicking into touch, dropped the pigskin into Hopgood's hands and the latter made a mark. The kick went wide of the posts. Shortly after this Victoria's three-quarters came to the fore.

With perfect combination they swept around the opposing forwards, and Newcombe, securing the ball on the last pass, plunged for the line. It was a close shave, but the referee called a scrum from which McNeill cleared. His kick was again faulty, and resulted in Victoria scoring their first three points. Rich caught the ball and with a beautiful drive sent it over the bar. Immediately after the kick-off the superior speed of the home team's three-quarters again told. Nason fumbled, but succeeded in passing to Cars, who, after making the most sensational run of the day, came within a few yards of the line and was then relieved by Newcombe. The latter passed to Hopgood, who planted the ball behind the line. The kick was at an easy angle,

but Scott's aim was just a little erratic, and the attempt at converting failed. The half ended with the score 5 to 0 in Victoria's favor.

In the second period the Bays had it even more their own way than before, but never succeeded in getting across the line. McGill's last ditch defence being of a spectacular variety. Time after time Nason on the right wing and Cars or Dickson on the left swept around the line in splendid style, only to be collared by one of Vancouver's husky forwards. From the scrum which would generally follow the ball would travel up the field, be returned by Johnson, and the same play tried over again with a like result.

Johnson was playing well down the field, and it was, without doubt, owing to this that the Terminal City boys secured their touch. "Boss" had the ball and O'Brien, one of McGill's forwards, who had followed up closely, was within a few feet of him. When the local full back kicked O'Brien jumped up and received the sphere full in the face. Nothing daunted the sturdy forward seized the pigskin and lumbered down the field, with only one man, Cars, between him and the goal. Cars missed his tackle and Stewart took the kick and converted, thus notching five points for Vancouver. The play became very exciting, the students straining every muscle to break away once more and the Victorians working equally hard to prevent them doing so. Owing to lack of a single speedy three-quarter all Vancouver's efforts were fruitless and the play remained right on their line until the end of the game.

Comparing the two teams, Vancouver had the advantage in the forward division, but the local three-quarter line was infinitely superior to that of the visitors.

Johnson played a better game than McNeill, although the latter during the second half was kicking into touch splendidly, and Newcombe and Rich had a shade the better of the opposing halves.

J. D. G. Scott refereed impartially.

The teams were:

McGill. J.B.A.A.

Full Back. Johnson.

McNeill. Three-Quarters.

Bushy. Nason.

McTear. Hopgood.

Stewart. Cars.

Stone. Dickson.

Half Backs.

#### ABOUT BASEBALL

Walter Johnson is premier hurler of the world," says an eminent authority on baseball. The entire world does not agree with this assertion, but part of the world does, and among those who do is the Red-haired Swede of the Nationals is the best pitcher in baseball is Hughie Jennings. And the red-haired Irishman says that everybody will agree with him in a year or two in everything he says about the blonde giant from the west.

Eddie Yates, one of the fastest infielders of the Spokane City league, has been offered a contract by Householder, manager of the Victoria team. Yates played with the Spokane team in the post-season series here last fall and made a great showing in the field and on the bases, though his stick work was somewhat weak.

According to one critic three things are certain, death, taxes and that Cleveland can't win the American league pennant, and adds that the team never will win while Lajoie is there or while Deacon McGuire is manager. Lajoie is a wonderful individual player, a terrible slugger, a timely hitter, yet a bad team hitter and a bad team ball player. Besides that the rest of the team would play better ball without him. He is too good. Jim McGuire was a good, stolid catcher, a fine fellow. He was a follower when he played, and never was nor will be a leader of men, says this critic.

Lynch has five pitchers working out in his ball park and some are going to get the axe. The new recruits look about as good as the vets and the Boss Bengali may have a time deciding. Those who are trying to show cause for getting a regular meal ticket are Brown, Reardon, Manthey, Geehan and Hall.

Ralph Willis, who, next to "Slivers" Henley, had more to do with winning the Coast league pennant for San Francisco in 1909 than any other San Francisco pitcher, will be a member of the Spokane champions for the season of 1911.

It is reported that Hans Wagner will be switched to first base in the Pittsburgh team this season.

The new ball park for the Yankees will seat 40,000 people. There will be three decks in the grandstand, which will accommodate 20,000 fans.

The signed contract of Catcher Spiesman, who came from the Oakland and Sacramento clubs in the Pacific Coast league last season, has just been filed away by Secretary Brown of the Vancouver club. The Beavers now have seven catchers on the staff.

#### ISLAND CHAMPIONS DEFEATED.

Ladysmith Best, But Lose Through Poor Shooting.

Vancouver, March 6.—Vancouver was, perhaps, lucky to beat Ladysmith on Saturday in a clever display of football by one to nil.

The deciding and solitary goal was scored during one of the home side's momentary visits to the Ladysmith citadel, whereas the beaten side pressed continuously for prolonged periods. Weak half back play and poor shooting led to the more polished team's defeat.

Thorpe and Melville at back, and

## Our Spring Hat Showing

**Is the Most Exclusive in Your City Strictly in Accord With the Season's "Korrek" Styles**

We couldn't afford to take chances. We bought the best, which includes the John B. Stetson's, Garriks of London, Kenmore, and the famous Fitwell, which in all comprise a unique showing at

**\$3.00, \$3.50 and \$4.00**

We guarantee every hat we sell to give perfect satisfaction, otherwise we will gladly replace it.

What Are the  
Papers Saying  
About

# HOPE

What Are the  
Papers Saying  
About

**DO YOU KNOW** what they are saying? Do you know that one paper refers to HOPE as the Spokane of British Columbia? Do you know that another says that HOPE has at her doors a mining camp which will eventually become famous as the greatest gold producing area the world has ever known? Do you know that the unlimited water power of the Silver and Coquahalla rivers will make HOPE the industrial centre of this Province? And do you know that the railroad companies, through their contractors, are working at a high speed in every direction, rushing their lines into HOPE?

## THE ADVANCE GUARD OF PROSPERITY IS AT THE VERY DOORS OF HOPE

It would take a newspaper ten times as big as the one you hold in your hand, to print all the facts the newspapers have printed during the past few months about HOPE? A few extracts are printed below. READ and CONSIDER.

HOPE'S UNEQUALLED V. V. & E. GRADE TO HOPE AT LAST COM- THE SCENIC GRAND- VANCOUVER MONEY SAY STEAMBOAT IS  
HERITAGE SUMMIT OF HOPE ING TO ITS OWN EUR OF HOPE GOES INTO NEW COMING CAMP  
MOUNTAINS MINING CAMP

Nature's Lavish Gifts to This  
Locality About to Be Util-  
ized by Man

In an article under this heading, the Hope News, under date of December 3rd, says:

In describing the advantages of Hope as a business and residential centre, it is hard to tell which is the most important feature, since all are more or less closely related. For transportation facilities we have the Fraser River and the main line of the Canadian Pacific Railway, which will soon be supplemented by the Canadian Northern, Great Northern and Kettle Valley Railways, all of which are under construction and with permanent location surveys directly through this town. Furthermore, the B. C. Electric Railway will, in the natural order of events, extend its line from Chilliwack to Hope. Such unlimited water power as the rushing Coquahalla River and its tributaries will supply, cannot long remain undeveloped, and electrical energy is the magnet which will attract this transportation agency as surely as the daisy turns its face toward the sun. And not only will the Coquahalla, which forms the eastern border of the town, supply electrical energy for transportation facilities, but it will turn the wheels of countless manufacturing and industrial concerns.

But, to be thoroughly self-supporting, a city cannot subsist upon manufacturing and transportation facilities alone, so Hope calls attention to the broad acres of fruit and farm lands which lie contiguous to her borders and which await the efforts of the horticulturist and farmer to be transformed into another garden of Eden. Then something may be said of the billions of feet of merchantable timber which are directly tributary to this town and which will soon be converted into lumber by the power of the Coquahalla and will find their way to the markets of the world.

To Lay Steel This Year

(Vancouver Province, Feb. 1st.)

Following out the statements recently made by Mr. James J. Hill in Vancouver, that the Great Northern would push construction on the V. V. & E. line from Princeton westward across the Hope Mountains, the announcement was made yesterday that within a short time tenders will be called for the grading of forty-two miles of line between the new coal town of Cardiff, west of Princeton, and Summit on the Coquahalla River.

WEALTH AT HOPE, B.  
C. THAT WILL LAST  
FOREVER

(The B. C. Mining Exchange.)

Rich as are the mines on Steamboat Mountain, Hope has an even greater treasure in the power of the Silver and Coquahalla Rivers. Mines may languish, but man's demand for power will exist as long as the world rolls on. And so, in considering the future development of Hope as a manufacturing centre, of first importance is the presence in the neighborhood of torrential rivers, which open a way to operate manufacturing plants at minimum cost. The unlimited power to be developed on the Silver and Coquahalla Rivers for manufacturing purposes will make Hope the industrial centre of this province. There is enough power in the Coquahalla alone, to turn all the wheels of trade in Vancouver. Hope, because of its natural position and resources, has been aptly compared to Spokane; it is the Spokane of British Columbia. Water power is the power of the future—cheapest, cleanest—and where the water power is, there will the factories be.

(Victoria Daily Times.)

Hope has probably more to back it up from almost every point of view than any other prospective town in British Columbia. This spot, situated about eighty miles from the mouth of the Fraser River, was established by the Hudson Bay Company more than half a century ago for several reasons. It was at that time the head of feasible navigation on the Fraser and a few miles below the canyons, which were almost impracticable by land and water.

As a future resort for tourists there is no spot in the lower country that affords better sport, more beautiful rides of unsurpassed scenery than the Hope Mountains.

Hope has been looked upon as a point that must eventually be very important. It has iron mines tributary to it that are not inferior to any in the province, it has water power of immense capacity, which can be obtained from the Coquahalla and Silver Creek Rivers; its timber of all classes, which must be brought out by way of Hope, is as extensive and valuable as any in British Columbia; its cedar will be sought for when the coast cedar is used up—and there is no finer than that on the Skagit River—now it is to have three railways culminating at that point, one, the Great Northern, building with great energy from the east to Vancouver, and constructing parties should be at work at Hope in the near future. The Canadian Northern is about letting contracts for a portion of their main line, and next year will see their grades stretched from the west all the way to Kamloops and Tete Jaune Cache, passing through the town, and as indicated in the press. The C. P. R. propo running a line from Merritt up the Coldwater and down the Coquahalla through Hope to Vancouver, giving them an alternative through line to the coast.

It is needless to expatiate on what must be the future of that town, the foundation of which was laid so many years ago.

(The Hope News.)

There are those who delight in satisfying the esthetic side of their being by contemplating the scenic beauty and grandeur supplied in such profusion by nature throughout British Columbia as a whole, and in especial variety in this favored locality. From the peaceful scenes of sunny glades and verdant dale through all the fascinating changes to the sublimity of rock-bound gorges and snow-encumbered crags of Holy Cross Mountain, the eye is treated to a panorama unsurpassed by scenes of world-famed renown.

HOPE'S NEW HOTEL

(Hope News, Nov. 17th.)

Work on the new hotel which Messrs. Cunningham & Graham are building in Hope is progressing as fast as the material can be assembled. The designer of the building is W. T. Whiteway of Vancouver. It will be three stories in height and will have sixty-four rooms, a ladies' parlor, a spacious dining room, bar room and office. There will be two main entrances, one on Fraser Avenue and the other on Wallace Street. A wide verandah runs around the entire front of the hotel, from which a glorious panorama of the Fraser River and the mountains may be had. The sanitary and hygienic arrangements are of the highest class. The hotel will be heated by hot water. The building is designed with the intention of running it up another story and adding a wing to the Wallace Street side, thus giving a total of ninety rooms, and it will be one of the finest hostleries east of the City of Vancouver.

A SAWMILL PROMISED

(The Hope News, Dec. 18th.)

H. O. Cameron, a sawmill man from Klilkat, Washington, was in town last week looking up the facilities for the starting on a lumber mill site. Mr. Cameron is greatly impressed with the crying need of such an industry in this locality and has several sites in view.

(The Daily Province, Vancouver.)

By the terms of a deal closed yesterday, a Vancouver syndicate organized by Mr. C. D. Rand has acquired a large but not a controlling interest in a group of three free-milling gold claims located on Steamboat Mountain by Messrs. Stevens & Greenwall, the discoverers of the now famous camp. The claims are the original locations. The camp is situated in the Hope Mountains near the headwaters of the Skagit River in close proximity to the international boundary. It has already attracted scores of prospectors, and many promising claims have been staked during the past six weeks.

SAY STEAMBOAT IS  
ANOTHER CRIPPLE  
CREEK

Experienced Miners Just Returned From Camp Confirm Recent Reports

Mr. F. C. Whitwell, with twelve years' experience in this Province and one of the pioneers of the Porcupine goldfields in northern Ontario, says that he has never seen anything better in British Columbia. "Steamboat," he said, "will, I am confident, become one of the best gold mining camps the province has yet produced."

Mr. A. G. Willoughby, who like Mr. Whitwell has recently returned from Steamboat district, where they have been doing considerable exploration and prospecting work, also thinks highly of the prospects of the camp.

"That people in that locality have faith in Steamboat is pretty clear," he said. "Two new hotels are being rushed up, one at Hope and one at Steamboat, and every preparation is being made to handle the rush."

Returning Mining Men Have  
Nothing but Good Words  
for the District

Four properties are already driving tunnels and owners, who have satisfied themselves of the merits of the camp, are putting up good substantial buildings for hotels, stores, etc.

REAL ESTATE VALUES  
ADVANCE AT HOPE

(The News-Advertiser, Vancouver.)

Hope, B. C.—Optimism in large quantities prevails in this city as a result of the recent discoveries in the Skagit country, of which this city is the portal. Real estate values have more than doubled in the past three months, and although the city consists of only one hotel, a general store, a livery stable and a handful of houses, as much as \$8,000 is asked for corner lots in what is expected to become the business centre of what is expected to be a thriving community when the railroads now headed this way reach this point and the mining country at the rear has been further developed.

BRIGHT FUTURE PRE-  
DICTED

(Nicola Valley News.)

No less than three railroads will pass through Hope, and it will become an important railroad centre. Nature has endowed it with the facilities for becoming a powerful distributing base, and the very fact that at its door lies one of the wealthiest gold camps on the continent, combined with the splendid resourcefulness of the district opens up great possibilities. We have great faith in the future of Hope.

## ACTIVITY IN HOPE REAL ESTATE

City Lots in Great Demand

With the opening of spring, and the influx of new residents into Hope, the town is taking on an appearance of great activity. That people have great faith in Hope is evidenced by the new hotels, stores and dwelling houses that are being pushed ahead as fast as lumber can be obtained. Another thing worthy of remark by those interested in realty movements is that prominent people in Vancouver and Victoria have been quietly buying up lots recently. When people prominent in provincial affairs, with an insight into railroad and governmental movements are investing money freely, it is a sure thing that there is a great future ahead for Hope. It is said that more than 100 lots were sold in Victoria last week. Wise-acre says that the price of lots in Hope will double and treble before the summer is over.

## VICTORIA WELL ADVERTISED.

Mail Brings Inquiry From Spanish America to Development League.

Vancouver Island is probably the most widely advertised of all the King's dominions. Never a day passes but a great shoal of inquiries finds its way to the local offices of the Development League. These range over the whole civilized world and serve to illustrate in unmistakable fashion the world-wide reputation of Victoria.

Just to-day among the list of inquiries was one Jose Maria Cardenas, and his letter bore the address of Bogota, Columbia, Spanish America. Having met some people from Victoria, he learned from them about the advantages, both climatically and financially, of this meridian city, he made up his mind to write to the league to have his information confirmed. That he got it so is the safest bet in the world to-day, for the league is always well stocked with the right sort of information for every type of inquirer.

## MORE REAL ESTATE MEN.

Monk & Monteith Open Fine Office on Port Street.

The realty business is responsible for the inauguration of another firm within the past few days. The principals of the new concern are Messrs. Monk & Monteith, and they have opened a smart office at 429 Port street. Neither of the partners are strangers to the real estate business in Victoria, both of them having gone through their paces with marked success. Mr. Monk managed the real estate business of Pemberton & Son for a year, after which he served with the William Monteith company of real estate agents, so that he is now well qualified to follow the business on his own behalf. Mr. Monteith, his partner, is a son of William Monteith, of the firm mentioned. He has had considerable experience in the insurance branch of the work, and it is in that direction that his energies will be principally applied.

At the present time they are handling a subdivision of Eboli Bay, in the Oak Bay district, a section that has recently come in for a great deal of attention among those desiring residential sites. They also intend in a couple of weeks time to put a large subdivision of the Esquimalt district on the market. Both the partners are young men, full of enthusiasm and vigor, with a great faith in the future of the city, and equipped with these qualifications are certain to do well.

## BLAZE AT PORTLAND.

Fire Carries Loss Estimated at \$50,000—Painter Sustains Injuries.

Portland, Ore., March 6.—It was estimated to-day that damage aggregating \$50,000 was done in the plant of the Dunham Painting Co., of First street, F. W. Nichols, a painter, who was badly burned, will recover, according to his physicians.

Three stories of the building, containing much valuable machinery, was heavily damaged by fire and water. The fire was caused by a spark which fell from an open stove into a can of gasoline.

## WOMAN DISAPPEARS.

Burlington, N. J., March 6.—Leaving no word, Miss Mariana Sutterly, member of a well known Trenton family, and for ten years an instructor at St. Mary's hall, a fashionable girls' school here, has dropped from sight, and the police to-day were asked to find her.

She disappeared Thursday night, and her absence was discovered Friday when it was learned she had not returned to the school. It was first believed that she had gone to visit relatives, but this was found to be a mistake. No reason for her disappearance can be given by relatives, who fear that she has met with some accident or has been killed.

## ART DEALERS ON TRIAL.

New York, March 6.—Accused of having defrauded the United States customs of \$5,000,000, H. J. and B. J. Duveen, Fifth avenue art dealers, were placed on trial here to-day in the federal circuit court.

Besides facing criminal charges, the Duveens are confronted by a government civil suit to collect \$500,000 back dues.

## COMPLAINTS AGAINST RAILWAYS.

Atlanta, Ga., March 6.—The interstate commerce commission began hearing here to-day of complaints that southern railroads have made unreasonable rates for carrying cotton and have discriminated against cotton buyers, merchants and compressors.

## DR. ORR TAKES CHARGE.

Toronto, March 6.—Dr. Rowland B. Orr has been appointed director of the provincial museum in succession to the late Dr. David Boyle, founder of the museum, whose death occurred two weeks ago. The position carries with it a salary of \$1,500, and Dr. Orr will, it is understood, be allowed to retain his practice.

## MAYOR OF INDIAN HEAD DEAD.

Winnipeg, March 6.—F. L. McKay, mayor of Indian Head, is dead, after a brief illness. He had been mayor for four terms, occupying the position at the time of the installation of the municipal waterworks and of the electric light plant.

**EASTERN TOWNSHIPS BANK**General Banking Business  
SAVINGS BANK DEPARTMENT.**CAPITAL, \$3,000,000 RESERVE, \$2,250,000**WM. FARWELL, President.  
JAS. MACKINNON, General Manager.  
VICTORIA BRANCH—TIMES BUILDING.  
R. W. H. KING, Manager.**SALARIES OF CIVIC  
EMPLOYEES INCREASED****Vancouver City Council Makes  
Number of Advances When  
Committee Reports**

Vancouver, March 4.—The special council committee which has been considering the salaries of civic employees made its report to the council in private session. Advances were recommended at nearly every point on the list, the committee stating that in its consideration of the question it had endeavored to drop all idea of the person holding the position.

The council took up the committee's report in detail carefully, going over the entire list and making many amendments.

The salary by-law as finally amended in full council later in the evening, provides for advances as follows: Assistant city solicitor from \$1,620 to \$2,500 per year; comptroller from \$3,750 to \$4,000; supervising engineer (new office), \$8,000; treasurer, \$2,400 to \$2,800; city clerk, \$2,400 to \$2,800; accountant, \$2,400 to \$3,000; assessment commissioner, \$2,400 to \$2,800; auditor, \$1,500 to \$2,000.

Board of Works—First assistant engineer, \$2,100 to \$2,400; second assistant engineer (new office), \$1,800; secretary, \$100 to \$124 per month after three years' service; engineer at incinerator, \$90 to \$100 per month.

Finance Committee—Purchasing agent, \$1,800 to \$2,400 per year; paymaster, cashier, license inspector, assistant treasurer and first assistants to assessment commissioner and city

clerk advanced to \$125 per month after three years' service; city hall janitor, advanced to \$90 per month.

Waterworks Department—Superintendent, advanced from \$2,250 to \$3,000 per year; foreman from \$125 to \$150 per month after three years' service; chief clerk from \$100 to \$110 per month after three years' service.

Health Department—Plumbing inspector, \$100 per month for first year, \$125 for second year, \$150 for third year and \$150 thereafter; assistant plumbing inspectors, first year \$95, second year \$105, third year \$115, thereafter \$125; building inspector, \$2,500 per year; assistant building inspector and assistant electricians, same rate as assistants in plumbing departments; electrician advanced to \$90 per month; poundkeeper advanced to \$90 per month; electrician for police patrol, advanced to \$125 per month.

General clerical assistants were given an advance of \$5 per month, the new scale being as follows: First year, \$75; second year, \$80; third year, \$85; fourth year and thereafter, \$90; stenographers and typists were fixed at \$50 to \$60 for first year, \$65 for second year, \$70 for third year and \$75 thereafter.

There was considerable discussion over the salaries for the fire department employees where increases were recommended at every point. As the council amended the report the only advances made were as follows: Chief, \$225 to \$250 per month; assistant chief, \$190 to \$200 per month; lieutenants, \$95 to \$100; secretary, \$90 to \$100 per month.

Where civic officers are not mentioned in the above statement no change was made by the council in the salary attached to the posts.

A man who died recently in Russia had not slept since his skull was fractured in a railroad accident six years before.

Earthquake is given a fine shell-like surface by exposing it when freshly made to direct contact with flames from fires fed with salt.

**SPORT NOTES**

Just when the amateur union had straightened matters out so nicely, and the officials were prepared to sit back in their chairs and watch the progress of their own island league, every team of which they insisted should be composed of absolutely snow-white amateurs, into whose minds a new even a thought of professionalism had entered, the whole trouble breaks out again. The very moment the children were allowed out on the lot the naughty boys climbed over the fence and contaminated the whole family. Now the parents must either lock the infected ones up and put some of the younger children in their places or let them all go, which would indeed be a serious infringement of the rules. In Saturday's soccer match between the Foresters and the Corinthians, Angus McKay, who was declared to be a pro a short time ago, was one of the former team's players. And in the game at Duncan the Wards played two suspended men, Lou MacDonald and J. Dakers. The case will without doubt come up for trial, and if the teams cannot prove that they played these black sheep "unknowingly," that is, were not aware of their bad standing, then the chances are, if the union is consistent, that every man on the four teams will be suspended. Duncan may escape under the "unknowingly" clause, but the local clubs would hardly have the nerve to take up that excuse at this stage of the game. The juniors will be the next ones to martyr themselves for the sake of amateurism.

The North Ward Juniors gave a dance in Semple's hall a few nights ago to raise funds to finance a baseball club for this season. The receipts were twenty odd dollars, and L. Fulton, the club manager, is now thinking of sending his way down to California and signing up a few ball tossers.

In a practice game of hockey played at the Oak Bay park on Saturday afternoon, between the Victoria ladies and the High school girls, the former won out by a score of three to two.

Valentine (Knockout) Brown, the New York lightweight, gained a popular decision on Friday night over Ad. Wolgast, the world's lightweight champion, in a slashing ten-round bout at the National Sporting Club of America. Three weeks ago Brown fought Wolgast at Philadelphia and the crowd of 3,000 who saw him fight voted him a victory, although the law required that a decision should not be rendered. Brown forced the fight from the start, and throughout gave more punishment than he received. In the clinches Wolgast showed superior generalship with his fighting. His tactics were so rough, however, that they brought hisses from the spectators.

**LEADERS AT LAST MEET**

Y. M. I. and Y. M. C. A. Will Clash in Their First League Match.

The basketball match which will be played in the institute hall to-night should be of more interest to the local fans than either of last week's games, for it will decide once and for all the question "Which is the best team, Y. M. C. A. or Y. M. I.?" The game will commence at 8.30. The teams are as follows:

Y. M. I.—Forwards, Brown and McArthur; centre, F. Sweeney; guards, McDougall and McDonald.

Y. M. C. A.—Forwards, Baker and Willis; centre, McKean; guards, Beckwith and Archibald.

**HORNETS TAKE SECOND PLACE**

Nanaimo, March 6.—Nanaimo Hornets defeated Vancouver here on Saturday in a MacKechule cup fixture by two tries (10) points to nil, and incidentally took second place in the race for the championship, which honor has already been won by Victoria. The game was won by the local forwards who played a strong aggressive game, completely smothering the visitors, who, during the first period of play, never had a look in.

From the kick-off Nanaimo assumed the offensive and kept the ball in Vancouver's twenty-five continuously, Watson registering the first try within fifteen minutes, which O'Neil failed to convert.

**STOMACH DISTRESS  
AND DYSPESIA GO**

Heartburn, Gas and Indigestion Vanish and Your Stomach Feels Fine in Five Minutes.

As there is often some one in your family who suffers an attack of indigestion or some form of Stomach trouble, why don't you keep some Diapensin in the house handy?

This harmless blessing will digest anything you can eat without the slightest discomfort, and overcome a sour, gassy Stomach five minutes after.

Tell your pharmacist to let you read the formula, plainly printed on these 50 cent cases of Pape's Diapensin.

Then you will readily see why it makes indigestion, Sour Stomach, Heartburn and other distress go in five minutes and relieves at once such miseries as Belching of Gas, Eruptions of sour, undigested food, Nausea, Headaches, Dizziness, Constipation and other Stomach disorders.

Some folks have tried so long to find relief from Indigestion and Dyspepsia or an out-of-order stomach with the common, every-day cures advertised that they have about made up their minds that they have something else wrong, or believe theirs is a case of Nervousness, Gastritis, Catarrh of the Stomach or Cancer.

This, no doubt, is a serious mistake. Your real trouble is, what you eat does not digest. Instead it ferments and sours, turns to acid, Gas and Stomach poison, which putrefy in the digestive tract and intestines, and, besides, poison the breath with nauseous odors.

A hearty appetite, with thorough digestion, and without the slightest discomfort or misery of the Stomach, is waiting for you as soon as you decide to try Pape's Diapensin.

**ENGLISH FOOTBALL**

London, March 6.—Results of football matches played Saturday follow:

First Division.  
Notre Forest, 0; Bradford City, 2.  
Everton, 2; Sunderland, 2.  
Bristol City, 0; Sheffield United, 2.  
Oldham Athletic, 1; Blackburn Rovers, 0.  
Sheffield Wednesday, 1; Aston Villa, 0.  
Newcastle United, 5; Bury, 1.  
Manchester City, 1; Woolwich Arsenal, 1.  
Middlesbrough, 2; Manchester United, 2.  
Tottenham Hotspur, 1; Liverpool, 0.  
Preston North End, 2; Nottingham County, 0.

Second Division.  
Birmingham, 1; Leicester Fosse, 0.  
Bolton Wanderers, 1; Blackpool, 0.  
Bradford, 0; Leeds City, 2.  
Burnley, 1; Gainsboro Trinity, 1.  
Fulham, 0; Stockport County, 2.  
Glossop, 1; Clapton Orient, 2.  
Huddersfield Town, 3; Wolverhampton Wanderers, 1.  
Hull City, 2; Derby County, 0.  
Lincoln City, 0; Chelsea, 0.  
West Bromwich Albion, 3; Barnsley, 0.  
New Brompton, 1; Swindon Town, 0.  
Millwall Athletic, 3; Exeter City, 1.  
Queen's Park Rangers, 0; Brighton and Hove Albion, 0.  
Westham United, 1; Northampton, 2.  
Luton, 0; Portsmouth, 1.

## NEW VESSEL FOR G. T. P.'S FLEET

### AMETHYST PURCHASED FOR ISLANDS' TRADE

Prince Albert to Handle All the  
Freight Between Southern  
Ports and Prince Rupert

Before the spring travel to the north  
is far advanced another steamer will  
arrive from England to join the Prince  
Rupert fleet, operated by the Grand Trunk  
Pacific Steamship Company to relieve  
the Prince Rupert, on the Prince Rupert-  
Stewart-Queen Charlotte Islands

## Hall's Sanitary Washable Distemper

The Cleanest and Healthiest  
Coating for Walls.  
Cheaper Than Paper.  
Dries Like Flat Paint.

### Some of Its Advantages

It is a strong disinfectant—  
should be used after infec-  
tious cases, as recom-  
mended by leading physicians.

It destroys fleas, bugs and  
other pests.

It is perfectly washable 3  
weeks after being applied.

It may be put on a damp  
wall, when it will stand  
better than oil paint.

It can be guaranteed to con-  
tain 1/2 per cent of Cresy-  
lic Acid if desired.

It is free from Caustic and  
Alkali.

It will not scale off, and can  
be painted on or varnished.

It is made in rich, deep col-  
ors as well as in tints—  
choice of seventy.

It is non-poisonous, cleanly  
in working, and applied  
very easily.

White ceilings coated with  
it will not turn black with  
sulphur—it never cracks  
or falls off like ordinary  
whitewash.

It requires no solution or  
liquid other than water—  
hot or cold—to mix it  
ready for use.

For covering power and dur-  
ability it surpasses any-  
thing else procurable.

It is the most suitable of all  
coatings for the interior  
and exterior of wooden  
houses.

One coat gives an even and  
solid color, and is all that  
is usually required.

Call here and allow us to  
demonstrate its many  
merits more thoroughly.  
Or, if you wish, one of  
our staff shall call upon  
you and give you an es-  
timate of what it would  
cost to decorate your  
house with this sanitary  
water paint.

Tel. 406. 818 Port St.

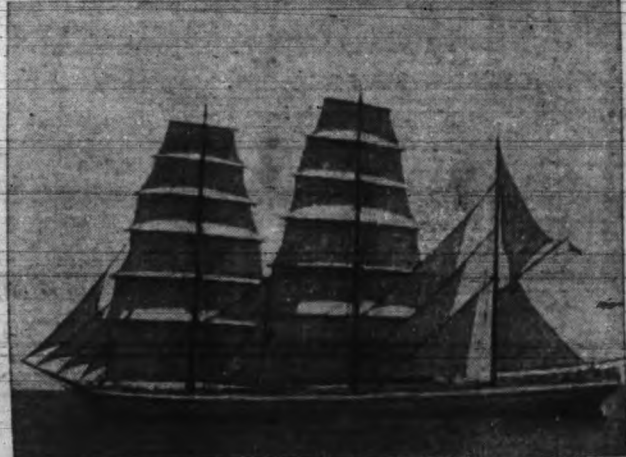

run, which will be transferred to the  
Victoria and Prince Rupert service to  
handle the freight now carried by the  
two big Prince Rupert steamers. The new  
vessel will be the Amethyst, which was  
constructed last year in England, and  
within a few months she will be in  
Victoria.

This information was given out on  
Saturday by W. P. Hinton, general  
passenger agent for the G. T. P. rail-  
way and G. T. P. S. Co., who had been  
spending several days in town. He  
with other officials of the company, is  
expecting one of the biggest seasons  
in the northern trade that has yet been  
experienced. The Prince George and  
Prince Rupert, which will very shortly  
be giving a semi-weekly service they  
anticipate will be kept so busy attend-  
ing to the passenger business that they  
will not have time to truck freight.

The Prince Albert, formerly the  
Bruno, is well adapted for handling  
freight as well as being a first class  
passenger steamer. She is, according  
to the new schedule now being ar-  
ranged by the Grand Trunk Pacific  
Steamship Company, to call at Victoria,  
Vancouver and Seattle, gathering up  
all the freight and proceeding north  
to Prince Rupert. From the G. T. P.  
terminus the new steamer Amethyst  
will cross to the Queen Charlotte Is-  
lands and then head for Stewart.

That the G. T. P. S. S. Co. is deter-  
mined to meet with the ever increasing  
demands of the north in the way of  
steamboat facilities is shown in their  
last move. Every part of the north  
will be adequately attended to by this  
company, on whose boats some of the  
most modern steamship accommodation  
on the Pacific Coast may be found.  
The new programme for the boats will  
undoubtedly prove to be very popular  
both with those who will be shipping  
material to the north this spring and  
summer and also to those who will be  
travelling to Northern British Colum-  
bia.

The Amethyst is comparatively a new  
boat, having been built in 1910 by Scott  
& Sons, Bowling, Eng., for W. Robert-  
son. She is 185 feet in length, with a  
25.6 foot beam, and a depth of 19.3 feet.  
Her gross tonnage is 682 tons, and her  
registered tonnage 446 tons. She is  
propelled by a single screw with triple  
expansion engines, developing 136 N. H.  
P. Her cylinders are 17.25 and 45

FRENCH BARQUE MOLIERE

Which arrived this morning from Glasgow with general freight for  
Victoria and Vancouver.

inch with a 33 inch stroke capable of  
driving the vessel at a fourteen knot  
clip. She is built throughout of steel  
and is equipped with electric lights.  
The vessel is well suited for the islands  
run from Prince Rupert and is an ex-  
cellent steamer with which to replace  
the Prince Rupert.

When asked as to when the two large  
Prince Rupert steamers would commence  
to give a semi-weekly service to the north,  
Mr. Hinton replied that he thought it  
would be about the beginning of April.  
Both vessels will by that time have  
completed their overhauling and be in  
splendid shape for the enormous north-  
ward rush which will soon be at its  
height.

Speaking concerning the new hotel  
to be erected in this city opposite the  
parliament buildings by the G. T. P.,  
Mr. Hinton stated that he did not think  
construction would commence this year.  
He, however, felt sure that steps would  
be made in that direction in 1912.

### LADEN WITH COAL

### HULK HITS ROCKS

Robert Kerr, Old Hudson Bay  
Barque, May Be Total Loss  
—Is Fifty Years Old

(Times' Leased Wire.)

Vancouver, B. C., March 6.—The well  
known C. P. R. coal hulk Robert Kerr,  
formerly a three-masted Hudson's Bay  
barque, now over 50 years old, lies  
partly submerged on Danger reef, eight  
miles northeast of Ladysmith. She left  
Ladysmith yesterday in tow of the tug  
Courtley, with 1,800 tons of coal for the  
Empress of India at this port. When  
heading for Portlier pass the vessel  
struck the dangerous reef. It is expected  
she will be a total loss. The crew of  
eight men were rescued. The coal cargo  
and machinery will likely be salvaged.

Liver Moore left for the scene of the  
wreck to inspect the hull and see if it  
can be raised. The Kerr has been in the  
service of the C. P. R. for the last 24  
years.

The Grand Trunk Pacific S. S. Co.'s  
wharf presented a busy scene Satur-  
day morning when Walter S. Fraser &  
Co., Ltd., were receiving a carload of  
the famous Coldwell lawn mowers. To  
look at this single shipment would not  
lead any person that local importers  
recognize the rapid growth of our city  
and the necessity of keeping large  
stocks for the coming season's trade.

## MOLIERE DOCKS AT OUTER WHARF

### HAS GOOD PASSAGE FROM GLASGOW TO THIS PORT

French Barque Had Rough  
Spell Off Cape Horn —  
Brings General Cargo

Completing a fair passage from Glas-  
gow via Cape Horn, the French barque  
Moliere, Capt. Jacket, arrived at the  
William Head Quarantine station late  
last evening, and reached the outer  
dock this morning, piloted up by Pilot  
Thompson. The vessel left the Scot-  
tish city on September 4 and was 152  
days out, which is a moderate passage  
for a sailing ship. She brought for  
Victoria and Vancouver about 3,000  
tons of general freight, including prin-  
cipally pig iron and salt.

The Moliere is the first sailing vessel  
to visit this port for several months,  
and she is one of the most modern that  
has ever docked here. She was built  
six years ago by the New Society of  
Navigation, Nantes, France, and shows  
beautiful lines. She has a number of  
steam winches on her decks. Consider-  
able rough weather was encountered  
during the passage and the vessel also  
ran into a number of calms. The skip-  
per, after his vessel had crossed the  
equator, figured that he would have  
reached port during the third week of  
February, but shortly afterward the  
Moliere was becalmed and when off  
San Francisco ran into a heavy north-  
west gale.

All the way down the Atlantic ocean  
the Moliere experienced good weather,  
except for several heavy spells when  
crossing the equator and abreast of  
Montevideo. Rounding the Horn the

vessel was beset by strong westerly  
gales and at times the wind blew with  
such force that many of the sails had  
to be furled. When riding out a light  
breeze off the Horn the wind gained in  
violence so suddenly that before all the  
upper top sails could be reefed the wind  
had carried them away. In the terrific  
winds and the mountainous seas the  
barque was driven from the set course  
and several days were lost in beating  
back.

Coming up the Pacific the vessel met  
a number of calms, which in some in-  
stances were followed by boisterous  
weather. Head winds were frequently  
encountered and the ship driven back.  
When abreast of San Francisco the ves-  
sel was caught in a heavy northwest  
breeze, and although tacking to the best  
of his knowledge, Capt. Jacket could  
not force his command to make any  
headway. Four sails were carried  
away in the gales and the tremendous  
seas breaking over her prow and com-  
ing over her sides washed the vessel  
from stem to stern. She was badly  
battered about, but emerged from the  
fray without losing anything but the  
sails.

During the remainder of the trip, af-  
ter weathering the storm off "Frisco,"  
the barque experienced several short  
calms, but soon caught a favorable  
breeze which blew her well up the  
coast. She passed in at Tatoosh on  
Saturday afternoon at 5.25 o'clock and  
made her way up the straits and was  
heading for Port Angeles when the tug  
Lorne, Capt. Cutler, sighted her and  
proceeded to alongside to place a line  
aboard. The Moliere reached quaran-  
tine at 9.35 o'clock last night several  
hours too late for inspection.

Work commenced immediately after  
the barque had tied up, in removing  
the hatches which were well lashed.  
She will discharge freight amounting to  
about 500 tons here and will not sail for  
Vancouver for some time. No charter  
has yet been secured for the Moliere  
but it is not expected that she will  
have to wait very long for one.

PETREL ARRIVES.

Steamer Purchased by Pacific North-  
west Fisheries Company Commenc-  
ing Operations Soon.

The steamer Petrel, which was re-  
cently purchased by the Pacific North-  
west Fisheries, Limited, has arrived  
from Seattle. The Petrel is to be used  
in conjunction with the company's in-  
fing stations, the first of which is lo-  
cated at Quatsino Sound. The Petrel  
is 65 feet long, with a beam of 13 feet  
6 in., with a speed of 10 knots. Very  
little alterations will have to be made  
on her, as she has been operated by the  
Birch Bay Cannery, situated near  
Juneau, Alaska, and is especially  
adapted for the work. The Pacific  
Northwest Fisheries will dispatch the  
Petrel shortly to Quatsino with stores  
and supplies and expects to be making  
shipments by the end of the present

## WIRELESS REPORTS

March 6, 8 a. m.  
Point Grey.—Cloudy; calm; 29.09; 45;  
sea smooth.  
Cape Lazo.—Cloudy; calm; misty sea-  
ward; 29.65; 35; sea smooth.  
Triangle.—Fog and rain; wind east 20  
miles; 29.00; 38; dense seaward.  
Pachena.—Rain; calm; 29.38; 41; light  
swell.

Estevan.—Overcast; wind N.E.; light;  
29.33; 45; sea smooth.  
Tatoosh.—Cloudy; wind N.E. 25  
miles; 29.70; 43; sea smooth. Outside,  
bound in, President.

Tkeda.—Rain; calm; 29.57; 40; light  
swell.  
Prince Rupert.—Rain; passing show-  
ers; 29.56; 36; sea smooth.  
Dead Tree Point.—Overcast; calm;  
sea smooth. Out, Prince Albert south-  
bound at 10.15 p. m.

Noon.  
Point Grey.—Overcast; wind N.W.;  
light; 29.80; 32; sea smooth. In, Prince  
Rupert at 8.55 a. m.; out, small two-  
masted steamer, but funnel, at 9.50 a.  
m.; in, Amur, at 11.15 a. m.

Cape Lazo.—Overcast; calm; wind N.  
E.; light; 29.85; 42; sea smooth; spoke  
Admiral Sampson at 11.50 a. m.,  
aboard of Lazo, expected to pass  
through Seymour Narrows at 3 p. m.

Tatoosh.—Cloudy; wind N.E. 20  
miles; 29.67; 46; sea smooth; out, U. S.  
S. Snobomah, at 9.50 a. m.

Pachena.—Cloudy; wind S.E.; light;  
29.39; 55; light swell; Lebroo at land-  
ing at 9 a. m., left eastbound at 9.50  
a. m.

Estevan.—Overcast; wind N.E.; light;  
29.33; 52; sea smooth.  
Triangle.—Fog and rain; wind N.E.  
20 miles; 29.53; 80; spoke revenue cut-  
ter Rush off Egg Island, southbound,  
at 10.15 a. m.

Pachena.—Overcast; wind east; 29.60;  
44; light swell.  
Dead Tree Point.—Drizzling; calm;  
sea smooth.

Prince Rupert.—Overcast; calm;  
29.57; 40; sea smooth; in, Princess Ena  
at 8.30 a. m.

## SHIPPING INTELLIGENCE

March 5.  
Tacoma.—Arrived: Str. Earl of For-  
far from Bellingham. Sailed: No. str.  
Cuba, for West Coast; str. Duckman  
for San Francisco.

San Pedro.—Arrived: Str. Yale from  
San Diego; str. Santa Rosa from San  
Diego. Sailed: str. Beaver for  
Portland; Santa Rosa for San Fran-  
cisco.

Balboa.—Sailed: Str. Mackinaw for  
San Francisco.

Bahia Blanca.—Arrived: Br. str.  
Cacique from Norfolk.  
Port Natal: Arrived March 2: Br.  
str. Saandon Hall from New York for  
Manila.

Punto Arenas: Arrived Feb. 26: Gr.  
str. Nicaragua from Hamburg for San  
Francisco.

Shanghai.—Sailed March 2: Br. str.  
Hazel Dollar for Moji.

Seattle's cod fishing fleet is now mak-  
ing preparations for the cod season,  
after spending the winter at ports on  
the Sound. There will be several addi-  
tions to the fleet this year, and the  
number of vessels that will fish in  
Behring Sea will be considerably larger  
than it has been for several seasons  
past. The boats spend a great deal of  
time in the north and do not generally  
return to port until they have their  
holds full of salted fish.

Charterers of the schooner Willis A.  
Holden, which recently put in at San  
Francisco in distress, are said to have  
fixed another sailing vessel to fill the  
Callao order originally taken by the  
Holden. The vessel will load at the St.  
Paul & Tacoma Lumber Company's  
plant at Tacoma for Callao and the  
lumber on the Holden will be sold at  
San Francisco.

With smoke belching from their fun-  
nels the Vancouver steamers Ophir and  
Celtic, from Nanaimo with herring,  
steamed into Tacoma harbor on Friday  
morning in one of the most exciting  
finishes in a race ever witnessed in  
Tacoma. The Ophir won by ten min-  
utes, but when the two boats rounded  
Brown's Point to turn into the harbor  
it was practically a tie. Both would  
have reached port at the same time  
only something went wrong in the en-  
gine room of the Celtic, causing a ten-  
minute delay.

(Additional S. pping on page 13.)

## CARRIES MONSTER CARGO TO ORIENT

Chicago Maru Leaves Port  
With Every Hold Crammed  
to the Hatches

Taking a capacity load of general  
freight valued at \$415,229, and several  
passengers, the Osaka Shosen Kaisha  
liner Chicago Maru, left port yester-  
day morning at 6 o'clock for the Orient.  
As usual the Japanese steamship took  
a large quantity of wheat and flour to-  
gether with a great deal of machinery  
for the new manufacturing firms in the  
land of the rising sun. At this port  
the Maru took on four passengers,  
making a total of 11 first cabin and 27  
steerage.

Among the first cabin passengers was  
Edwin Orrett, local traffic manager of  
the line with headquarters at Tacoma,  
who has started on a business trip of  
the world. From Yokohama he will  
visit Tokyo and other Japanese cities in  
addition to Osaka, where he will confer  
with officials of the O. S. K. at head-  
quarters. Following this, Mr. Orrett's  
itinerary calls for a somewhat extended  
tour, which includes Manila, Hongkong  
and Northern Chinese ports. Thence  
he will proceed from either Harbin or  
Vladivostok across to this country via  
the trans-Siberian railroad. Before re-  
turning to this country, via New York,  
Mr. Orrett will call at a number of  
ports on the Continent, as well as at  
his old home at Chester, England. Al-  
though in the transportation business  
for many years he has never before  
been in the Orient and his coming trip  
through that section will give him an  
intimate knowledge of conditions in  
that section of the world. Mr. Orrett  
expects to return to Tacoma about the  
1st of July.

For one port in the Orient the Maru  
has a complete flour mill. The ma-  
chinery cargo consists of electrical ma-  
chinery, laundry machinery and mill  
machinery. She has the usual ship-  
ment of sewing machines, totalling  
more than 1,000 cases valued at \$20,000;  
she has 877 cases of electric fans valued  
at \$20,000; 300 cases of telegraph ap-  
paratus valued at \$15,000; 6,800 barrels  
of flour valued at \$27,200; 1,242 cases  
of salt herring valued at \$6,216; 457 bales  
of cotton valued at \$24,000; 2,432 pieces  
of structural machinery valued at \$23,  
794; 5,215 cases of canned meats valued  
at \$15,774; 500 cases of beer, 200 barrels  
of whiskey; 250 tierces of lard com-  
pound; 123,245 feet of lumber; 2,000 cases  
of paraffine wax. One of the modern  
items of her cargo is a shipment of  
vacuum cleaners. There are also  
many cases of cotton clothing, shoes,  
paint, milk, etc.

Next of the Osaka liners to arrive  
here will be the Tacoma Maru, which  
is due to reach this port on March 24.  
This line gives a fortnightly service be-  
tween Puget Sound and the Orient, but  
between the Chicago Maru and the Ta-  
coma Maru is over a month. This long  
spell will be over come when the new  
steamship Canada Maru is ready for the  
trans-Pacific run in a short time.

Charterers of the schooner Willis A.  
Holden, which recently put in at San  
Francisco in distress, are said to have  
fixed another sailing vessel to fill the  
Callao order originally taken by the  
Holden. The vessel will load at the St.  
Paul & Tacoma Lumber Company's  
plant at Tacoma for Callao and the  
lumber on the Holden will be sold at  
San Francisco.

than it has been for several seasons  
past. The boats spend a great deal of  
time in the north and do not generally  
return to port until they have their  
holds full of salted fish.

Charterers of the schooner Willis A.  
Holden, which recently put in at San  
Francisco in distress, are said to have  
fixed another sailing vessel to fill the  
Callao order originally taken by the  
Holden. The vessel will load at the St.  
Paul & Tacoma Lumber Company's  
plant at Tacoma for Callao and the  
lumber on the Holden will be sold at  
San Francisco.

With smoke belching from their fun-  
nels the Vancouver steamers Ophir and  
Celtic, from Nanaimo with herring,  
steamed into Tacoma harbor on Friday  
morning in one of the most exciting  
finishes in a race ever witnessed in  
Tacoma. The Ophir won by ten min-  
utes, but when the two boats rounded  
Brown's Point to turn into the harbor  
it was practically a tie. Both would  
have reached port at the same time  
only something went wrong in the en-  
gine room of the Celtic, causing a ten-  
minute delay.

(Additional S. pping on page 13.)  
—Fishing tackle that's fit for fishing,  
at Victoria Sporting Goods Store,  
Douglas street.

Seattle's cod fishing fleet is now mak-  
ing preparations for the cod season,  
after spending the winter at ports on  
the Sound. There will be several addi-  
tions to the fleet this year, and the  
number of vessels that will fish in  
Behring Sea will be considerably larger  
than it has been for several seasons  
past. The boats spend a great deal of  
time in the north and do not generally  
return to port until they have their  
holds full of salted fish.

Charterers of the schooner Willis A.  
Holden, which recently put in at San  
Francisco in distress, are said to have  
fixed another sailing vessel to fill the  
Callao order originally taken by the  
Holden. The vessel will load at the St.  
Paul & Tacoma Lumber Company's  
plant at Tacoma for Callao and the  
lumber on the Holden will be sold at  
San Francisco.

## REVIEWS WORK OF U. S. CONGRESS

### Progressive Says Tactics of Democrats Made Extra Session Necessary

Washington, D.C., March 6.—Reviewing the reform results obtained in the congress which ended Saturday, Senator Bristow, of Kansas, one of the leading Progressives and a member of the Progressive League, says much cause for satisfaction for the people at large. He hopes for even greater popular triumphs in the near future.

(Copyright 1911 by the United Press Association, by Joseph L. Bristow.)

While this has been a short session of congress during which it was not expected that any general legislation would be enacted, yet it has been a very fruitful session. For the first time in history, a direct vote in the senate was obtained on a resolution to amend the constitution of the United States providing for the election of senators by the direct vote of the people, the vote standing 54 to 32. A two-thirds vote being necessary, the proposition failed, but a change of only four votes would have submitted the question to the state legislatures for their approval. This vote was very significant and progressive Republicans believe that the next congress will submit the amendment.

The effect of the Lorimer verdict will be good. He should have been unseated. I believe he holds his seat as a result of bribery. This, I think, is the opinion of the American people. But the fact that out of a total of 54 votes, 40 senators voted the seat vacant because of corruption, makes it the most notable vote on a question of that kind in the history of the senate.

The defeat of the tariff commission bill by a Democratic filibuster was for the deliberate purpose of forcing a special session of congress. The Democratic party has not sufficient information to undertake the great task of tariff revision without danger to the great business interests of the country. It is an attempt to play cheap politics, regardless of public welfare and public interest. In my judgment the men responsible will receive the unqualified condemnation of the American people. On the whole the results of the session are highly encouraging to members of the Progressive League.

### DR. A. W. CHASE'S CATARRH POWDER 25c.

Is sent direct to the diseased part by the Improved Blower. Heals the ulcers, clears the air passages, stops dripping in the throat and permanently cures Catarrh and Hay Fever. 25c. Blower free. Accept no substitutes. All dealers or Edmondson, Bates & Co., Toronto.

## PASSING SHOW

Majestic Theatre.

The new programme at the Majestic for Monday and Tuesday has another thriller as a leading feature. "The Test of Friendship," the test taking place on the eighteenth storey of a skeleton sky-scraper in course of construction. The scene is sensational and the interest is intensified by the preceding action of the play. "Beth's Temptation" depicts Quaker life and country. It is a love story and the country boy whose suit is discarded for a city man almost commits murder. The girl takes him back eventually after he has saved her life and that of her city lover. "An American Count" is a funny picture, illustrating how they fooled a girl into marrying her old sweetheart, whom she summarily dismissed when told a foreign count was to visit her, and when the count appears and falls on his knees he is summarily pitched out of doors. "The Poor Sick Man" is a Biograph comedy.

Jamieson's Crystal Theatre. Patrons who so thoroughly enjoyed the Pathe picture illustrating scenes and customs in Singapore shown on Friday and Saturday will be pleased to know that another outdoor Pathe film will head the list on Monday and Tuesday at the Crystal. This one will be interesting to naturalists as it shows innumerable varieties of birds in their native haunts. It is entitled "Birds in Their Nests and in Love," and is one of the best of that class of pictures that this celebrated firm has put out. Another fine picture, away from the "canned drama" type, will be "A Trip Through Mexico," by the Powers Company. This will vie with the Pathe picture for first place and will prove thoroughly interesting both to those who are acquainted with that country and to those who have not yet had an opportunity of visiting it. To please those who care for drama, and to help vary the programme the management has secured a particularly good one by the Powers Company entitled "The Angel of His Dreams," and a screaming comedy is entitled "Predator's New Shoes."

New Empire Theatre. There is \$50 waiting for some lucky finder to pick up in Victoria. A marked metal disc, encased in a small tin box, has been buried somewhere by the side of a public highway. The lucky finder on presenting same at the office of the New Empire theatre will receive \$50. The management wish to make it distinctly understood that this tin box containing the \$50 disc is not buried on anyone's private property, but is simply buried two inches below the surface of the earth on a public road and can easily be unearthed by fingers alone—picks, shovels, rods, spades, etc., are positively unnecessary to find this hidden treasure. In order to assist intending seekers, commencing to-day, clues will be given as to its whereabouts to all visitors to the New Empire until this treasure is unearthed. The management claim the right to announce

in the press the name and address of the finder.

The programme for Monday and Tuesday is a special selection from the four acknowledged leading manufacturers of the world: "A Family of Vegetarians," a comedy by Edison; "The Old Water Jar," Indian drama by the Vitagraph Co.; "Too Much Mother-in-Law," comedy with a moral, by Selig; "An Exile's Love," by Lubin, and illustrated song by Miss O. Richards.

Romano Theatre.

The bill of pictures at the Romano theatre for Monday and Tuesday is an exceptionally good one, the headliner, "A Manly Man," showing that all the world loves a lover, and a manly man appeals to all. A young civil engineer leaves his sweetheart in the States and goes to the Philippines on duty. He is loved by a Filipino maiden, who nurses him back to life and health when he is stricken with fever and is deserted by his comrades. Out of gratitude he marries the native girl and when his sweetheart arrives he chooses between love and duty, and is loyal to the faithful woman. The tropical settings are beautiful.

Other films are: "The Night Round," a good comedy; "Foot at Home," a comedy scream; "Across the Mexican Border," a drama of 1,000 feet, and another feature film.

## Imitation Cough Cures

Is an Imitation Cough Medicine  
Good Enough for Your  
Children?

When you are sick and send for the doctor you don't want him to send a young medical student he has in his office. You would rather have the young fellow experiment on somebody else.

No more do you want imitations of the medicine you know to be of proven value in the cure of disease. The remarkable success of Dr. Chase's Syrup of Linseed and Turpentine in the cure of croup, bronchitis and colds has proven too great a temptation to imitators. They expect you to take chances with their medicine because the price is a few cents less.

Imitations are never sold on merit, but depend on the merit of the article they imitate. You don't want to be experimented on, and for this reason will insist on seeing the portrait and signature of A. W. Chase, M.D., the famous Receipt Book author, on the bottle you buy.

As it is made of simple ingredients of proven value, it is well suited as a treatment for children. That it is effective in the cure of croup, bronchitis, whooping cough and the most severe coughs and colds is attested by its many years of continued success and enormous sales; 25 cents, all dealers, or Edmondson, Bates & Co., Toronto.

## RUMORED PLOT AGAINST REPUBLIC

Report of Conspiracy for Re-  
stitution of Portuguese  
Monarchy

Madrid, March 6.—Portuguese spies swarmed into Madrid Saturday to investigate reports that the Duke of Oporto was a recent secret visitor here seeking Spanish co-operation in a plan for the restoration of the Portuguese monarchy.

A dispatch from Oporto says that the plot was exposed there, several arrests made and incriminating correspondence seized. The provisional government continues to strengthen its northern garrison.

WITHDRAWS RESIGNATION.

Senator Bailey, of Texas, Decides to Re-  
tain His Seat.

Washington, D.C., March 6.—Senator Joseph W. Bailey, who added to the excitement and episodes surrounding the closing of the sixty-first congress Saturday by resigning his office as senator from the state of Texas, a few hours later withdrew his resignation. Angered by the attitude of his Democratic colleagues in favoring the resolution approving the new constitution of Arizona, to whose radical features he has voiced his opposition, Mr. Bailey wrote his resignation and took it to the vice-president with the request that he announce it to the senate. Mr. Sherman declined. Senator Bacon, imported in like manner to announce it, took a similar position. Thereupon the Texas telegraphed it to Governor Colquhoun, of Texas, who promptly refused to accept it, replying: "I decline to accept your resignation as a senator from Texas and respectfully ask you to withdraw it. Please wire fully."

Meanwhile the resignation caused excited discussion about the capitol, many of Mr. Bailey's Democratic colleagues, expressing surprise at his action; and those who talked with him urged him to reconsider. Not a few prophesied that he would think better of his decision after he cooled off, and would withdraw the resignation, which he did in the evening.

FIGHT IN GOULD FAMILY.

New York, March 6.—The house of Gould is divided against itself as a result of George Gould losing out in his fight to retain the presidency of the Missouri Pacific and his disposal of large blocks of stock in the corporation.

Frank Gould strenuously objects to being ousted as a director of the road, and has engaged counsel to fight for his place. By the terms of the agreement reached between Wall street and George J. Gould Kingdom Gould, son of George, was to remain on the board, while Frank Gould was eliminated.

The German army includes more than 10,000 musicians.

## Important Announcement re FORT GEORGE

Very important railroad announcements as to definite locations, also development and construction at FORT GEORGE, will be made in a few days.

### WATCH THIS PAPER'S PAGES

It is a most remarkable fact that not less than ten railroads are now either building, chartered or surveyed to FORT GEORGE. FORT GEORGE is the geographical and strategic commercial centre of British Columbia—Canada's largest and richest province. FORT GEORGE is at the junction of 1,100 miles of navigable waterways, in the gateway of the famous PEACE RIVER VALLEY.

## The Evening Chit-Chat

BY RUTH CAMERON

To publicly call attention to another's deficiencies is unpardonable. Of course, that's no news. Everyone knows that. To call attention to one's own deficiencies is unnecessary and often very awkward. That, I think, must be news. So many people seem not to know it. There is an otherwise well-bred young girl among my acquaintances who is forever talking about how homely her nose is. Now the nose is not Grecian, neither is it anything so startling that people would think about it if they were not so frequently reminded of it. Indeed, the nose itself is not half so bad as her habit of talking about it. It is "perpetually," "What would you do if you had a nose like mine?" or "I really think I would be almost good looking if it were not for my nose." Her friends are kept continually protesting and comforting until they learn to steer carefully clear of the subject of noses in particular and personal appearances in general. Aside from the fact that this habit of running one's self down is bad policy, because it concentrates other people's attention to deficiencies they

self-knowledge and lack of conceit involves the discomfort of others, she would do well to forego it. To know one's deficiencies is desirable. To keep quiet about one's knowledge is equally so. Improve your deficiencies when you can. Ignore them—that is, don't think about them and don't force other people to, when you can't. Admit your deficiencies if you are ever taxed with them, but never unnecessarily drag them into the limelight. These seem to me some pretty healthy rules to follow in this matter.

Ruth Cameron

### SOCIAL AND PERSONAL

Mrs. Arthur Spaulding, South Pender Island, is spending a few days in town.

E. H. Fletcher, post office inspector, is in Vancouver on an inspection trip.

Mrs. L. Rasmussen left on Saturday via the Northern Pacific for Southern California.

Miss Mary Bankson, who has been visiting friends at Cedar Hill, has returned to Seattle.

Archdeacon Pentreath, who was over from the mainland for a couple of days, returned home on Saturday night's boat.

Miss Helen Rispin, who has been visiting with Mrs. Blackwood, Linden Avenue, for the past two months, left on Saturday via the Northern Pacific on her return to her home at Chatham, Ontario.

Miss Kathleen Parlow, the eminent Canadian violinist, who played here last Monday evening, is doing splendid advertising for Victoria on her concert tour. In an interview in Winnipeg she said: "My visit to Victoria will be long remembered because of the wealth of glorious sunshine and diffusion of warmth which proves such a delightful contrast to the weather conditions on the rest of my tour. Victoria is a wonderful place. It reminded me very much of Stockholm. The splendid view of the bay from the Empress hotel brings to mind the situation of the Imperial hotel in Stockholm, only instead of the rugged mountains which Victoria has for a background Stockholm has but the beautiful palace of the King of Sweden."

## ASTORAL STAFF FOR BISHOP PERRIN

Cathedral Congregation Pre-  
sent Him With Symbol of  
Episcopal Authority

you, as our father in God, took over the care and administration of the parish when our late rector, Canon Beaulieu, was called away from his duties, until the appointment and induction of our new rector.

"We, who have had the pleasure of working with you in various capacities during these times of change, and who know of what tremendous importance such an epoch is in the history of any parish, and more especially so in our own case, being the mother church of the diocese, have been permitted to realize your courteous, fatherly hand ever pointing out to us the highest ideals.

"Your appointment of two most earnest and zealous priests to assist you in the spiritual work of the parish, your watchful visitation of the sick, your care of the young and supervision of all other branches of our church life, and the general peace and harmony which have prevailed during your rectorship, all of these are indeed blessings, for which we thank our heavenly Father.

"We tender you our gratitude and earnestly and sincerely pray that you may be long spared for your work and be permitted to see abundantly the fruit of your labors.

"We desire your lordship to accept the accompanying gift of a pastoral staff, for the use of yourself and subordinates in the see of Columbia, as a perpetual memorial of your rectorship."

Alexis Martin, people's warden, presented the crozier, the Latin inscription on which reads as follows in translation:

"To William Wilcox, Bishop of British Columbia, in remembrance of many kindnesses during 18 years (and especially of his faithful discharge of the duties of rector of the parish in the year 1909 A. D.)

"This pastoral staff is presented by the parishioners of Christ church, now finally designated as the cathedral church.

"For the perpetual use of the bishops of British Columbia."

"A. D. 1910."

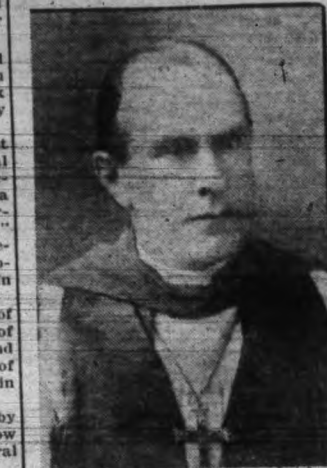

His lordship thanked the congregation in feeling terms, and the crozier was then consecrated, after which the confirmation service was proceeded with.

The staff is of fine polished ebony, with crozier of sterling silver, heavily gilded, and mounted with Siberian amethysts. The staff is divided into four sections, so that it may be easily taken apart and packed in a velvet-lined leather case provided for the purpose. The two lower sections are surmounted with heavy knobs with beaded ornamentation, and the Latin inscription is placed at the top of the third section. The crozier, which tapers from the base to the end, encloses a circle of delicate tracery

around the "agnus dei," beautifully modelled and showing the cross in the background, and on the reverse the arms of the see of Columbia.

Enclosed in the lower part of the crozier is a cluster of maple leaves, oak leaves, and acorns, these being emblematic of the province of British Columbia. Surmounting the highest knob are hand-modelled figures of the four evangelists under canopies, and supported by oak leaves. Eight very fine Siberian amethysts (four large and four small alternating), set in cabachon and mounted in bezel settings, form the ornamentation of the upper knob, and add the touch of rich coloring which, contrasted with the ebony staff and the heavy gilding, give an effectiveness not otherwise attainable.

The staff has been examined by several leading churchmen, both cler-

RT. REV. W. W. PERRIN.

Last evening the congregation of Christ Church Cathedral presented the Lord Bishop of British Columbia with a pastoral staff.

ical and lay, in eastern Canada, and is considered one of the finest in the Dominion. It was designed and manufactured in its entirety by the ecclesiastical department of Henry Birks & Sons, Montreal and Ottawa.

The address was illuminated in a chaste but very striking design, and was the work of Frank I. M. Owen, architect.

## MINERS ARE OFF FOR ALASKAN GOLDFIELDS

Admiral Sampson Leaves Seattle for North With Over 100 Nugget Hunters

(Times Leased Wire.)  
Seattle, Wash., March 6.—The 1911 rush for the gold fields of Alaska has already begun, although there is no accounting for the early migration to the frozen land of fortune. The steamer Admiral Sampson is steaming out of Puget Sound to-day on the first trip of the season to the far north ports. All passenger accommodations were taken long before the hour of sailing last night, and the vessel has 1,000 tons of freight in her hold besides.

Among the passengers is B. W. Johnson who takes twelve head of horses and several crates of live chickens. He is going to start a farm in Iditarod, the farthest north mining camp where 4,000 people are wintering. Johnson's chickens will be the only ones within 500 miles of Iditarod, and he is figuring on charging \$6 a dozen for the eggs. More than 100 of the passengers are bound for the new camp.

The time used is Pacific Standard, for the 120th Meridian west. It is counted from 0 to 24 hours, from midnight to midnight. The figures for height serve to distinguish high water from low water.

### "JACK THE CLIPPER."

Grand, Ore., March 6.—Stuart Morris Hulin, dubbed "Jack the Clipper" by the police, was called to-day charged with being the man who has been surreptitiously snipping off the tresses of numbers of women in Portland recently. The man was arrested while in the act of cutting off a woman's curl on the street. When his room was searched a large number of puffs, curls and braids, most of them black, were found in his room. Hulin, who is engaged in the real estate business, and who makes a good appearance, declares that he has a mania for clipping women's hair, which he cannot explain. He said he acquired the mania a few minutes after he had cut the hair off Miss Helen Lawrence, a friend, on a date recently.

## ALASKAN EXCURSIONS COMMENCING IN JUNE

Steamer Spokane to Make Five  
Trips During Summer—  
Will Call Here

At the offices of R. P. Rithet & Co., Ltd., local agents for the Pacific Coast Steamship Company, a large number of booklets have been received giving information regarding the summer excursions to be run by that company from Victoria, Seattle and Vancouver to Alaska on the steamship Spokane. Many illustrations of this picturesque portion of the United States, showing the great glaciers passed on the way, the old Indian villages visited with the huts and totem poles, and the cities of the north nesting at the foot of the great mountains there.

Victoria will have the opportunity of taking in these excursions as the steamship will call here on every north-bound trip. The schedule in the booklets show that the first excursion will be made on June 14 from Seattle. On the following day the vessel will call here and on her return from the north she will reach Vancouver on June 24 and Seattle on June 26. Five excursions will be run in all, and many of the residents on the Sound will be enabled to visit Alaska. On the second trip north the Spokane leaves Seattle on June 28 and Victoria on June 29; on the third trip she leaves Seattle on July 12 and Victoria on July 13; on the fourth trip she leaves Seattle on July 26 and Victoria on July 27, and the fifth trip she leaves the Sound on August 9 and Victoria on the 10th.

The Spokane has for some years been operated by the Pacific Coast Steamship Company in carrying excursionists to the north, and she is a popular vessel. She will be overhauled and equipped towards making travel more pleasant for the passengers before entering on the run. The ports at which she will call with the excursionists are as follows: Ketchikan, Metlakatla, Wrangell, Juneau, Treadwell, Gold Mines, Skagway, Haines, Glacier Bay, Davidson Glacier, Taku Glacier, Windom Glacier and Sitka.

### STRIKES CLIFFS OF DOVER.

Steamship Hancock Was on Way  
From Antwerp for San Francisco—  
Water in Hold.

San Francisco, March 6.—The British steamer Hancock, which left Antwerp early this week for this port with general cargo consigned to Parrott & Co., is reported ashore at Dover to-day badly damaged. Two of her holds are completely filled with water and much of her cargo, if not all of it, will be a loss. The Hancock is well known on the Coast. She came out from Sydney, C. E. R., last fall with rails for Prince Rupert, B. C., and after discharging came to this port and loaded a full cargo of barley for Europe, leaving here October 23. The British steam dredger No. 508 put into this port this morning for fuel en route from Glasgow for Vancouver. She was launched at Glasgow in November, 1908, and sailed 106 days ago for this coast in command of Capt. Rodick. She is a vessel of 435 tons net register, has a speed of nine knots and carries a crew of 20 men. William Simmons, of Glasgow, built her.

## INDIAN MEMORIAL

Text of Request Made to the Government.

The memorial which the Indians of the northern district presented to Premier McBride Friday was in the following terms:

We come before you to-day as the chiefs and representatives of nearly all the Indian tribes throughout the province of British Columbia.

We do not come to you as a body of settlers, but as the original inhabitants of this land. Our ancestors have occupied this land from time immemorial and we, their children, claim that the title to the land is invested in us; and has never been extinguished, either by conquest or treaty.

This title was acknowledged by Sir James Douglas, the first governor of the colony, when he purchased from the Luckwoma or Songhees tribe certain portions of land on the southern end of Vancouver Island; and was also

AN INDIAN CHIEF

Who took part in the conference here last week.

recognized by the legislature of Vancouver Island, and by the honorable secretary of state for the colonies, who, in his dispatch from Downing street, dated 19th October, 1861, said: "I am fully sensible of the great importance of purchasing without loss of time the native title to the soil of Vancouver Island."

The Indian title was referred to in the following terms by Lord Dufferin, in his address to the legislature of British Columbia, on the 24th day of September, 1874. "Most unfortunately there has been an initial error, ever since Sir James Douglas quitted office, in the government of British Columbia neglecting to recognize what is known as the Indian title. In Canada this has always been done; no government, whether provincial or central, has failed to acknowledge that the original title to the land existed in the Indian tribes. Before we touch an acre, we have made treaty with the chiefs, and having agreed upon and paid our stipulated price, we enter into possession, but not until then do we consider that we are entitled to deal with an acre. The result has been that in Canada our In-

## BANK WRECKER MAKES CONFESSION

Declares Officials of New York Banking Department Are Being Hoodwinked

New York, March 6.—Startling evidence that the cash assets of a dozen big New York financial institutions were manipulated, juggled and pyramided and freely used to hoodwink the state banking department was secured Saturday from Jos. Robin, confessed bank wrecker, by District Attorney Whitman. Following the consultation Whitman announced that wholesale indictments would follow.

Although the district attorney refused to give out the details, it was learned that Robin furnished dates and figures and gave the names of the officers of the institutions responsible for the alleged shady transactions.

Robin told Whitman that he had been robbed and then deserted by his assistants and that he intended to get even by betraying them.

## THE BALD-HEADED MAN MAY LOOK WISE

But If He Had Been He Would Have Had Hair Now.

You do not want a scientific treatise on the hair follicle—you are not particularly interested in the name of the German scientist who isolated the bug that is said to cause baldness. What you do want to know is how to save the hair you have and make it strong and lustrous.

Nyal's Hirsutone will do it better than anything else.

It is not claimed that Hirsutone is a wonderful scientific secret—but it is the concrete result of all that is proven in the scientific treatment of sick and diseased hair and scalp.

It is a happy combination, and you will notice a prompt improvement in the feeling of the scalp and the look of the hair.

Hirsutone loosens and removes all scaly and matted deposit on the scalp—stimulates the hair bulbs and gives new life and vigor to the hair itself.

Nyal's Hirsutone gives back to the hair and scalp just what it has been robbed of by your neglect and abuse. It is time to start right. Use Hirsutone.

It is one of the Nyal remedies and no higher recommendation can be given it. They are all good. Ask your Nyal Druggist. He recommends it.

Sold and guaranteed by D. E. Campbell, John Cochrane, Dean & Hiscocks, F. W. Pawcett, Messrs. Hall & Co., W. Jackson & Co., F. J. Williams, Victoria.

One for each everyday ailment

TYPICAL TRIBESMEN

Leaders of the northern Indians, who interviewed provincial government on Friday regarding their claims.

dians are contented, well affected to the white men, and amenable to the laws and government."

Now, gentlemen, if treaty has been made with the Indians in all the other provinces of the Dominion, why have the Indians in this province been ignored? We have heard from the "Friends of the Indians" that you have declared "there is no issue," and "that the Indians are all satisfied." We have come here at great expense to tell you that our people are far from satisfied and are becoming more dissatisfied every day. We certainly think there is a very great issue, and are here to ask that the matter be submitted to the courts, from which we hope to get justice, as we cannot conceive of British law being anything else but just.

The government blamed the "Friends of the Indians" for stirring up this matter. This is not founded on fact, as the matter has been working among us for many years before the "Friends of the Indians" took it up. Twenty-four years ago the Indians of the Naas river and Port Simpson addressed the government on this matter, and eleven years ago the Indians of Cowichan sent a petition to Ottawa asking for a commission to be appointed to look into the land question. Five years ago three chiefs went to England to see King Edward and two years ago a deputation of twenty-six chiefs went to Ottawa.

We have waited patiently for long years in the hope and expectation that our rights would be recognized, and justice done to us by the government of British Columbia. We can assure you that it is a painful matter to see our lands sold to speculators, whilst many of our people have not sufficient land to maintain their families. Trusting that this matter will be submitted to the courts for adjudication without further delay.

James T. Powers in "Havana."

The Messrs. Shubert will bring to the Victoria theatre to-morrow James T. Powers in the famous and much-heralded production, "Havana." The play has been praised chiefly on account of its beauty of scenery and costuming, the humor, which James T. Powers, as the American adapter of the piece, has interjected into the book, and the delightful melodies found in the score. The music is one of the chief features of the piece, which is easily accounted for when it is known that Leslie Stuart, composer of "Florodora," wrote the numbers. He has given the piece something like eighteen musical gems, among them being "I'm a Cuban Girl," "On the Shores of Sheephead Bay," "Cupid's Telephone," "Way Down in Pensacola," "How Did the Bird Know That," "Hello, People, People, Hello," and others.

"Sweet Lavender."

The very first year that Edward Terry became his own manager and owned his own theatre, the year 1887, he produced one of Pinero's comedies, "Sweet Lavender."

On the occasion of its first run he played the part of Richard Phenyl, Esq., in this play 676 times. In the intervening years he has revived this splendid comedy a dozen times in London, he has played it in every town that possesses a first class theatre in the British Isles, he has toured America in it and has played it in South Africa and Australia.

He is now on his way to a second Australian tour, during which "Sweet

Sir George Darwin, referring to this theory of a great Antarctic bay, "but such a body of water as I have imagined alone seems to explain certain remarkable oscillations noticeable in the tidal observations of Scott and Shackleton. I have judged its depth to be from 100 to 150 fathoms and its length from 25deg. to 30deg. of latitude (some 2,000 miles). I do not lose sight of the fact that it may be an arm of the sea and not a bay."

## SAFETY DEVICE OF WINNIPEG INVENTOR

Arrangement for Signalling Ap-  
proach of Trains and Re-  
moving Cattle Guard

A model of a remarkable device  
which has been patented by Winnipeg-  
gers for the purpose of affording great-  
er safety at level railway crossings, is  
on view in Winnipeg. Those who have  
seen the model working claim that it  
will revolutionize anything now in op-  
eration for the safety of the public at  
level crossings.

The railway companies have for some  
years been looking for a safe apparatus  
which will afford the greatest protec-  
tion at level crossings for both man and  
beast, and several prominent railway  
men have expressed the opinion that  
Winnipeg genius has given to the  
world such an apparatus in the "Coul-  
ter Safety Level Crossing Device."

The machine is remarkable for its  
simplicity and for its accuracy. The  
device is an automatic one. The in-  
vention consists of a series of short  
flanges set at intervals at a distance  
from the crossings on the outer side of  
one set of rails only. On the engine  
striking the first flange a warning bell,  
which is self-winding, starts ringing at  
the level crossing, and continues to do  
so until the train has passed.

As soon as the train reaches the sec-  
ond flange a semaphore is raised to the  
pedestrian or those crossing the rail-  
way, and lowered to the train crew and  
engineer. At night a red light is turned  
to the road and a white light to the  
train. The last flange operates a cat-  
tle guard which is lowered and locked  
down as the train approaches and rais-  
ed and locked again when the last car  
passes, thus affording perfect security.  
The cattle guard is considered by those  
who have seen it to be the best yet in-  
vented. As the flanges are placed on  
both approaches to the crossings, there  
is no need for the train after leaving the  
crossing serve to rewind the bell in pre-  
paration for the next train. Should by  
any possible contingency a signal to be  
made, then a semaphore is raised and  
a red light is turned to the engineer.  
The whole system is entirely auto-  
matic, no electricity being used. The  
bell is self-winding and the light is  
created by flint steel and gasoline. It  
is worked by three cables in conduits  
placed under the rails to a depth which  
will afford every protection in the se-  
verest weather. The 55-pound stan-  
dard rail will be used and the flanges  
are to be placed at the following dis-  
tances from the crossing: First, which  
winds the bell, 300 yards; second, raises  
and lowers semaphores and throws sig-  
nal light, 600 to 700 yards; and at the  
third which lowers the cattle guard,  
300 yards from the crossing. A sys-  
tem is attached to the cables which prac-  
tically removes the impact of the train  
on the device.

## ALASKAN INVESTIGATION.

Washington, D. C., March 6.—Just be-  
fore adjournment of the senate, Vice-  
President Sherman appointed Senators  
Fitt and Tallie: rro to fill the vacancies  
on the national monetary commission.  
Senators Nelson, Smoot, Nixon, Sim-  
mons and Bankhead were appointed mem-  
bers of a senate committee to investigate  
conditions in Alaska.

### SOME DATA ABOUT LOS ANGELES PROJECT

Sooke Scheme a Mere Bagatelle—Cost of Tunnels  
and Canals

Apocryphal of the Sooke lake water pro-  
ject, a comparison is frequently made  
with the big scheme which has been  
in progress at Los Angeles for some  
years past, but such comparison is  
quite impossible, save in respect to the  
cost of boring a tunnel through the  
mountains. Engineers who have re-  
ported on the Sooke scheme have made  
various estimates, ranging from \$15  
to \$30 per foot.

Through the courtesy of the Los An-  
geles authorities, the Times has ob-  
tained a number of reports dealing with  
the great water project at that city. In  
an article in the National Geographical  
Magazine of July last, from the pen of  
Burt A. Heintz, the average cost of  
boring the various tunnels is given as  
\$30 per foot.

Some idea of the immensity of the  
Los Angeles project will be gleaned  
from the article by Mr. Heintz. He  
says:

"There are 22 miles of canal, 43 miles  
of tunnels, 15 miles of steel siphons and  
concrete-covered conduit, with 13 miles  
of the remaining distance made up by  
reservoir distance. This makes a total  
of 230 miles from the point of intake

### WILL SOON PUSH V. V. & E. TRACKS WEST

Work Northwest From Prince-  
ton Will Be Started in  
About Two Months

Tracklaying on the V. V. & E. line  
northwest from Princeton will com-  
mence in about two months, announce  
ed Mr. J. H. Kennedy, chief engineer  
of the V. V. & E., this morning. Mr.  
Kennedy stated that on account of  
the snow near Princeton nothing  
could be done for some time, but just  
as soon as the summer season arrived  
the work of pushing the steel west-  
ward to the coast would be gone  
ahead with. At the present time the  
line is graded from Princeton, sixteen  
miles to Tulameen and it is under-  
stood that when the tracklayers be-  
gin on the Princeton end, to put the  
rails on the grade, other gangs will  
continue the grading.

Work is being pushed at the west-  
ern end of the V. V. & E., says Mr.  
Kennedy. Mr. J. W. Stewart at pres-  
ent has about 150 men, on grading  
operations between the Abbotford and  
Sooke river. This contract which  
originally extended to Chilliwack, but  
which, it is understood, is being cut  
off at Sumas river to permit the rail-  
way company to use Canadian North-  
ern tracks between the river and  
Hope, is over 60 per cent completed.  
It will probably be done in about two  
months and a half, it is thought.

The reason given to-day by Mr.  
Kennedy for the protest lodged be-  
fore the railway commission against  
the route chosen by the Kettle Val-  
ley Railway Company through the Co-  
quahalla valley from Summit west-  
ward was that the line of the Kettle  
Valley would be above that on the V.  
V. & E. on the mountainside, thus  
creating a situation somewhat similar  
to that of the C. P. R. and C. N. R.  
in the Fraser canyon, where the older  
transcontinental claims that the Cana-  
dian Northern proposed tracks will  
be in a position preventing the C. P.  
R. from throwing debris off its line  
down the mountainside. In the case  
of the V. V. & E. and Kettle Valley,  
however, it is explained the protest-  
ing company is the one which is the  
lower down on the slope.

### UNDER NEW CONTROL.

Pacific Coast Mines Company Has New  
Directorate.

The Pacific Coast Coal Mines Com-  
pany, Limited, has been re-organized,  
and an entirely new list of officers ap-  
pointed to control its operation. It is  
proposed under the new regime to  
double the output of the South Well-  
ington as soon as they can open up anoth-  
er mine. The company also intends to  
go on with the development work at  
Suquamish by equipping it with a new  
plant. The following are the new offi-  
cers: John P. Hartman, Seattle,  
chairman of the board; C. C. Michener,  
Victoria, president and managing di-  
rector; L. L. Wiehard, New York, first  
vice-president; Chas. C. Kimball, New  
York, second vice-president; J. F.  
Mosby, secretary-treasurer; G. H. Rob-  
ertson, Victoria, director, and R. H.  
Thomson, Seattle, director.

George Wilkinson, at present the  
mine superintendent, has been elected  
mine manager in charge of all the op-  
erations of the company.

### IMPROVING GOVERNMENT ST.

\$100,000 Block to Be Erected on Site of  
B. C. Permanent Loan.

The lease of the B. C. Permanent  
Loan Company of the site which they at  
present occupy at 1210 Government  
street expires during the year, and it  
is the expressed intention of the owner  
of the property, Dr. Frank Hall, to then  
erect a new six-story building at a  
cost ranging between \$75,000 and \$100,-  
000. Dr. Hall announces that the new  
structure will be of concrete and stone.  
It is probable that a store or a bank  
may occupy the ground floor, but the  
other floors will be let as offices. As  
the site has a 32-foot frontage on Gov-  
ernment street and a 60-foot frontage  
on Langley street, to which it extends,  
the new building should contribute ma-  
terially to the beautifying of the prin-  
cipal street of the city.

### SUBSTITUTE FOR RADIUM.

Prof. Ruthertford, of the Roentgen So-  
ciety, reports a practicable method of  
producing mesothorium, a substitute for  
radium. He says the new substance is  
quite as good as radium for medical pur-  
poses, and much cheaper, and can be ex-  
tracted from thorium, a heavy metallic  
powder of iron gray tin, which burns  
brilliantly in air or oxygen, and which is  
extracted from thorite, which is found  
in Norway.

### Safe and Accurate Medication

When your prescription is pre-  
pared by us you may confidently
